ORDER ALLOWING CHANGE IN PLAN OF DEVELOPMENT

₩.

WHEREAS the State Water Rights Board has found that the changeoin plan of development under Application 12321, Permit 11359, for which petition was submitted on April 30, 1965, will not operate to the injury of any other legal user of water, and

WHEREAS the Board has approved and allowed said change and has directed that an order be issued to allow said change in plan of development in accordance with said petition; and

WHEREAS applicant has described said plan of development in a supplement filed as a part of said petition on April 30, 1965, and

WHEREAS said supplement was submitted on Form Number 1, the standard form of the State Water Rights Board for application to appropriate unappropriated water of the State of California;

NOW THEREFORE IT IS ORDERED that permission be and the same is hereby granted to change the plan of development under said Application 12321, Permit 11359, and

IT IS FURTHER ORDERED that said supplement be attached to and made a part of said Permit 11359, in order that said permit accurately describe applicant's plan of development.

WITNESS my hand and the seal of the State Water Rights Board of the State of California this 2 nd day of September, 1965

L.K. Hill

L. K. Hill Executive Officer

The state of the s

PERMIT No. 1129

This is collectify that the application of which the foregoing is a true and correct copy has been considered and approved by the State Water Rights Board SUBJECT TO VESTED RIGHTS and the following limitations and conditions:

- 1. The amounts of water appropriated shall be limited to the amounts which can be beneficially used. They shall be further limited to such excesses as occur at permittee's points of diversion over requirements, if any, for beneficial purposes, within the watersheds tributary to said points of diversion.
- 2. The amounts of water appropriated shall not exceed 310 cubic feet per second by direct diversion from Silver Creek, 225,000 acre-feet per annum by storage to be collected from Silver Creek and 50,000 acre-feet per annum by storage, to be collected from South Fork Silver Creek. Diversions under this permit for direct utilization and for accumulation of water storage shall both be restricted to periods extending from about November 1 of each war to about August 1 of the succeeding year.
- 3. The maximum amounts herein stated may be reduced in the license if investigation so warrants.
- 4. Actual construction work shall begin on or before July 1, 1959 and shall thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted, this permit may be revoked.
 - 5. Construction work shall be completed on or before December 1, 1967.
- 6. Complete application of the water to the proposed uses shall be made on or before December 1, 1980.
- 7. Progress reports shall be filed promptly by permittee on forms which will be provided annually by the State Water Rights Board.
- 8. Permittee shall by-pass down the natural channels of the streams covered under this permit for the purpose of maintaining fish life such flows as are provided for in that certain document entitled "Stipulation for Withdrawal of Maintain between City of Sacramento and California Department of Fish and Game, dated October 15, 1957, filed of record as Fish and Game Exhibit No. 18 of the hearing of Application 12321 and 12622.
