Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

This is emphatically not a "California water fix". The Delta tunnels project is a very costly massive water transfer only to benefit industrial agriculture, all the while adversely harming our invaluable Bay Area-Delta ecosystem. Please do not permit this project.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Sincerely,

Ms. Maxine Litwak  
164 Caribe Isle  
Novato, CA 94949-5347

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

There is only ONE reason a public official will support and promote any proposal which, at the outset, is very obviously, designed to have the complete opposite effect, to being a resolution to an ecological or environmental crisis. And that is: a bribe or kickback or however you care to characterize an illegal monetary compensation for allowing the advancement of a devastating and potentially disastrous project. Gov.

Brown, you have the opportunity to prove to the people of California, that you are a governor who cares about and oversees the welfare and well-being of your state and not a corrupt, corporate, sleaze-bag, with \$\$ signs for eyeballs. Either, you're in charge and you're corrupt, or you're not in charge. Your actions will let the people know . . . .

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

This is a dead horse that the State of California has been beating since at least the 70's. It represents 19th and early 20th century thinking about water issues, when supply was thought to be essentially unlimited and the only problem was distribution. That is simply no longer the case. Let's give this poor old horse a decent burial and find solutions that deal with the real water problem of the new millennium: supply is not unlimited and we need to find ways to deal with that.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

This is a massive giveaway to the water barons. While it is clear that the beef and dairy CAFOs should be the prime targets for water and soil conservation groups, the largest almond/ pistachio orchards don't belong in the desert, with 80% exported to China. Alfalfa exports must also be addressed. The twin tunnels will not create more water. This is a boondoggle.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Sincerely,

Ms. Vicki Gold  
2102 Tanager Ln

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

The Bay/Delta ecosystem is invaluable not just to the endangered species that live there, but to preserve the public health and economic viability of the region. The Sacramento River is already lower than usual. To drain it to grow almonds, instead of supplying us humans with water, makes no sense. Please stop this terrible project!

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

In this time of drought CA needs to protect its Delta. We are pumping so much ground water the earth is sinking by feet. I am sorry, but big agribusiness can pay for trucks to deliver their water. The species that inhabit the Sacramento Delta and the San Francisco Bay need the water for their survival. It is time to put living things and ecological health over the vast profits of agribusiness.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Southern California is SUPPOSED to be a desert, not a megalopolis as it is now. Spanish explorers described it as a "semi-arid region". The amount of water falling in California CANNOT support 38 million people. Southern California is going to have to use desalinization - there is no other option that will allow the state's natural water supply to suffice.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Dear Gov. Brown and Decisionmakers,

I beg you to put an end to this underground tunnel project and consider alternative options for redistributing water around the state (or providing industries with new water resources). Redistributing water from places where endangered species live is devaluing the state and lands of California. A biodiverse ecology is imperative to human health. Please put an immediate END to this export tunnel project!

Lauren

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

I do not believe in large dams or tunnels. We must have a comprehensive water plan that looks into water-intensive crops. We must adapt to drought conditions and be willing to look at other possible solutions that do not destroy our environment and help us to sustain life here.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

This sounds good, send water to where it is needed from some place that has plenty.

This is no true!

First you will mechanically destroy massive amounts of the delta and the surrounding environment by digging and building these tunnels and control stations.

Second you will remove large volumes of water from the delta destroying the agricultural land and the entire ecosystem in the delta, which will never recover in your life time.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

One cannot underestimate the environmental importance of the Delta. The only thing this proposal will do is irrevocably destroy the Delta while padding the pockets of construction companies, engineers, large-scale agriculture, and politicians. This will not help our water crisis in any significant way. This is a VERY BAD IDEA!

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Sincerely,

Ms. Arlene Baker

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Please don't risk the health & viability of the Delta region (and thus the Bay Area as a result) to support almond & pistachio trees.

I'm willing to give up eating these if it means sustaining our ecosystems. Let other areas that do not have our water problems grow these crops. Thank you.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Sincerely,

Ms. Elizabeth Riegler

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

We are all connected to the creatures who call the delta their home.  
Don't destroy it and them.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Sincerely,

Ms. Wendy Plyler
