Oct 8, 2015

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Exporting our water in the form of almonds to China, in a drought, makes no sense.

Thank you for reading my letter.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Sincerely,

Mr. Robert McCombs  
164 Deer Fern Ln  
Bayside, CA 95524-9333

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Nobody can predict all the horrible reverberations that would stem from diverting a water from a river. Put our tax money to use for recycling and desalination plants, and other conservation measures. Not to serve the financial aspirations of those who would profit from this drought, this change of climate.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Sincerely,

Ms. Gwynn Popovac

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

I am ABSOLUTELY NOT in favor of the Delta tunnels project. It would be far better to prevent waste from the existing water transfer canals and mandate stricter water restrictions both for individuals, but more importantly for farmers who have continued to plant water intensive trees regardless of this drought. The fact that the central valley is SINKING due to draining of the aquifer because the legislature has not taken action to limit drilling of wells is another symptom of our political problem solving issue.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Moving water isn't a long term fix to the long term problem we are facing. It's short-sighted and has devastating effects. Please, don't tunnel water through the Bay-Delta!

Thank you,

Aimee Noel

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Sincerely,

Mrs. Aimee Noel  
1319 Dartmouth Dr  
Glendale, CA 91205-3511

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

This isn't a fix, it's just another short-sighted decision to appease business while endangering wildlife and fragile ecosystems. If crops like almonds use too much water, then we need to not grow them here, especially during an historic drought. We have to adapt to the planet we live on, it won't happen the other way around. Projects like this will just continue to use up more resources and disrupt more interdependent systems that will need real fixing later. How about a REAL fix NOW - one that's not commercially or politically driven? The problems created by continuing to do things this way will be far costlier.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

A California Water Disorder is how I percieve the "California Water Fix".  
Dear Decisionmakers,

The Delta Tunnels Plan may be a "fix" for southern Cal, but is not good for the Delta. I know you have heard arguments on both side of this issue, so I am making my voice heard as a resident of Brentwood and the adjoining cities of the San Francisco Oakland Bay Area Delta and rivers of Stockton and Sacramento.

Oppose the Tunnel Project

The "California Water Fix" needs to be fixed down south, for them to find water sources there, not by robbing the water that belongs to us in the Delta. I expect you to do what is right and block any and all efforts to stop the Delta Tunnels/California Water Fix (Alternative 4A) project.

Sincerely, Bill Hirvonen

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Messing with natural water-ways, as seen during the water wars of the 30s and 40s has devastating effects, not just on communities and farming, but also on wildlife habitats. We must look to the past for solid solutions for the future, and rerouting water, even underground aquifers is not the route to go. We must find a solution that is both community, and ecologically friendly. Not just for us, now, but for our children and the world they inherit. Stop this proposal. Burn it.

Thank you.

I am writing to express my strong opposition to the Delta Tunnels Plan.

CA

Dear Conservation Plan,

I live here. We need the water here more now than ever. There isn't a lot to divert elsewhere especially to water-thirsty industrial agricultural projects. We need to protect critically endangered salmon and other fish species in the Delta and SF Bay downstream. Please...NO.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Sincerely,

Ms. Rebecca Stewart  
1958 San Juan Rd Apt 32

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Please, look at the long term consequences of the installing these pipelines - 7 generations.  
The wisdom is lost, the reasoning not sound. There are other solutions.  
It is not wise to feed a hunger from another's need.  
Thank you in advance for finding a way to look outside the box - to look at what has worked in other countries.  
Sincerely, Laurie Batha

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Realizing that much work went into the current water proposal, the general welfare of the state seems to require much consideration of the need to replace ground water, to build replacement storage facilities to cover where ground water usage has caused subsidence, and a detailed review of environmental effects of any action. The current plan does not do this adequately. It also seems like a high cost alternative, when lower cost actions would meet state needs.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

I was raised in Benicia on the Carquinez Straits and my Mother remembered when the water was green and she could swim in it.

I'm afraid Governor Brown's  
plan would degrade flow and  
harm fish biology.

Stop raising beef. No more golf courses. When we stop Wars, everyone can have a low flow toilet and shower head, or  
compost toilet. Oh, and stop breeding!

Do not pass this trendy and  
very shaky proposal to be cool.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health,  
and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would  
save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

This is not the fix we need. Stop allowing foreign countries from growing alfalfa in California for export, and stop ridiculous water users (like those in Bel Air) from squandering what we have. Protect fish and wildlife and the Bay Delta instead.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Sincerely,

Mr. Jed Manwaring  
1536 Parker Dr  
Santa Rosa, CA 95405-4525

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

We need to face the reality that California just may not be able to afford the growing of certain crops anymore. Unfortunately, there are not, and most likely will not be, ways to provide what is no longer available (rainfall). All of us are going to need to sacrifice our old ways of living here in California. I am willing and have for many, many years been extremely conscious and careful about our family's water use (we not only conserve, but re-use much of our water, etc.). We need to make further conservation efforts universal and enforce further measures FIRST. I still see sidewalks beings WASHED - both commercially and by individuals. I see sprinkler systems still in use, with water running down the sidewalks and streets. Hopefully I have gotten my point across.

I oppose strongly taking measures that seem to deny the reality of our drought - like diverting water to almond orchards, that affect the ecology of the environment in essential and disastrous ways.

I think you are doing a terrific job in SO many ways and thank you for your good work. At the same time, I ask you NOT support the building of the two massive tunnels through the Bay-Delta. Let's stop fracking and coal mining first and try attendo to the things that are causing the drought in the first place.

Thank you for listening,  
Jane Illades,  
San Diego, CA

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

The water tunnel export idea is ludicrous. It's long past time California implemented sensible water policies, including aquifer protection and conservation, and not turn to such absurdities as the "California Water Fix." This is an appalling project.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Sincerely,

Ms. Ann Carranza

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Please abandon this environmentally risky plan. Leave the Delta alone!  
Save the fish. Let them grow cotton, nuts, etc. elsewhere....like where there's more water available.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Sincerely,

Mr. Miles Jordan

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Keep the Delta the way it is. We give enough of our water away. Keep it here where it belongs.

I am writing to express my strong opposition to the Delta Tunnels Plan.

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

I live in this area and I can tell you that the impact of these proposed tunnels would be devastating. We'd lose miles of crucial native habitat. PLEASE stop these tunnels from being built.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.
