**Subject:** Approval of OID, SSJID & Bureau of Reclamation Agreement

Dear Board Members,

You are all well aware of the issues involved in the recent agreement between our local agencies (Oakdale Irrigation District and South San Joaquin Irrigation District) and the Bureau of Reclamation regarding New Melones and Lake Tulloch Reservoirs.

It is not every day that multiple agencies are able to agree on a plan of action and I sincerely ask you to support their efforts and sensible approach to this crisis. While it is only a short term one addressing the remainder of this calendar year it is a sensible approach. *Your approval* of it would be in the best interests of the affected Sierra Foothill communities, the affected agricultural areas and the general economy as well.

I understand the need of the Water Board to continue addressing its environmental objectives and this will allow you to continue your programs while protecting the ecology and the economy of the foothills.

Thank you.
