Subject: Water Rationing

State Water Resources Board

Please, I urge you "DO NOT" ration our water any further. This community has already reduced it's water consumption to 75 gallons per day per person which is one of the lowest use rates in the state. More rationing of water would be hard on our economy, health and the quality of life for our citizens. Please do not take this action. J. Matt McNickle, General Contractor, resident of Pacific Grove, Ca.
