

You all should be ashamed of yourself . After all the meetings you held you are no further ahead. We will end up with 50 gallons of water and the steelhead trout and the frogs will all be happy. I might add so will all those folks in Carmel Valley. You need to get moving on the desal plant and maybe asking for some help from our neighbors who have water. I AM SO ASHAMED OF YOU! FROM LINDA BENEKE ONE OF YOUR CUSTOMERS
