Subject: responsible water usage

Please do not threaten those who live in the Carmel and Pebble Beach area with more water restrictions. We are already the most responsible water users in the state. What we need is A DE-SAL PLANT IN THE WORKS !!!!! What is the hold up...????? Why can't the "powers that be" work responsibly for the people of the Monterey Peninsula ? This situation just keeps dragging on and on. Why not require ALL golf courses to use grey water by a certain date ? And encourage homeowners and estate owners to plant native species and others which are more drought-tolerant ? Water taken from the Carmel River and nearby wells needs to be done in a manner that is responsible, but not punitive. Responsible water usage can be achieved with thoughtful deliberations and a sense of community.

Thank you.
Suzanne Taunt
