

Summary of Qualifications
ARTHUR HINOJOSA

EDUCATION

Bachelor of Science in Civil Engineering, May 1991
University of California at Berkeley

PROFESSIONAL AFFILIATIONS

Registered Professional Engineer in California,
Civil Engineering No. 53309

EXPERIENCE

From January 2000 through December 2004, I served as Chief of the Operations Compliance and Studies Section that reports on the SWP's Delta compliance requirements and assists with engineering studies and analysis pertaining to the SWP operations. The Section is responsible for monitoring, analyzing, and advising operations of the SWP as they affect compliance with federal, State, and local institutional and environmental policies, procedures, and regulations regarding the Feather River and Sacramento-San Joaquin Delta.

I worked as an engineer with the Operations Control Office, Division of Operations and Maintenance, Department of Water Resources since August 1993. As part of the senior staff, I was responsible for understanding and advising management regarding the multitude of issues that involve the operation of the SWP. I also represented the Office, Division, or Department as necessary at forums involving SWP operations, water transfers, endangered species consultation, and various monitoring activities.
