NOTICE OF UNAVAILABILITY OF WATER AND IMMEDIATE CURTAILMENT FOR THOSE DIVERTING WATER IN THE SACRAMENTO AND SAN JOAQUIN RIVER WATERSHEDS WITH A POST-1914 APPROPRIATIVE RIGHT

On January 17, 2014, Governor Edmund G. Brown, Jr. proclaimed a State of Emergency (Proclamation) to address the record dry conditions around the State. On the same day, as directed by the Proclamation, the State Water Resources Control Board (State Water Board) issued a statewide notice of water shortages and potential for future curtailment of water right diversions.

Curtailment of Post-1914 Water Rights:

Based upon the most recent reservoir storage and inflow projections, along with forecasts for future precipitation events, the State Water Board has determined that the existing water supply in the Sacramento and San Joaquin River watersheds is insufficient to meet the needs of all water rights holders. With this notice, the State Water Board is notifying all holders of post-1914 appropriative water rights within the Sacramento and San Joaquin River watersheds of the need to immediately stop diverting under their post-1914 water rights, with the exceptions discussed below. This condition of curtailment will continue until water conditions improve. Even if there is water physically available at your point of diversion, that water is necessary to meet senior water right holders' needs or is water released from storage that you are not entitled to divert. If precipitation occurs in the following weeks or months, you should not commence diversion before being notified by the State Water Board that water is legally available for diversion under your priority of right.

Permission to initiate diversions during or following significant rainfall events may be posted at: http://www.waterboards.ca.gov/waterrights/water_issues/programs/drought/index.shtml#notices. You can get immediate email updates from the State Water Board about these notices by subscribing to "Drought Updates" at: http://www.waterboards.ca.gov/resources/email_subscriptions/

Compliance Certification Required:

Curtailed post-1914 diverters are required to document receipt of this notice by completing an online Curtailment Certification Form (Form) within seven days. The Form confirms cessation of diversion under the specific post-1914 water right, and, if applicable, identifies the alternate water supply to be used in lieu of the curtailed water right. Completion of the Form and identification of alternate rights can avoid unnecessary enforcement proceedings.
