DIVISION OF WATER RIGHTS**

**FORM FOR DEMONSTRATING A RIPARIAN RIGHT FOR A WATER DIVERSION FOR CANNABIS
CULTIVATION USE WITHIN THE MEANING OF BUSINESS AND PROFESSIONS CODE SECTION**

19332.2 (b)(5)

INSTRUCTIONS

California law provides a means for each person or entity that plans to divert surface water for cannabis cultivation use to file a Form for Demonstrating a Water Right Claim for Cannabis Cultivation Use (Form) with the State Water Resources Control Board (State Water Board), Division of Water Rights (Division) in accordance with Business and Professions Code § 19332.5 (b)(5), as support for submitting a Cannabis Cultivation license application. A Form may be filed if water is planned to be diverted and used under a claim of riparian right and no diversion occurred in any calendar year between January 1, 2010 and January 1, 2017.

Once diversions begin, the diverter must file an Initial Statement of Water Diversion and Use (Statement) with the Division by July 1 of the succeeding year. Failure to file a Statement for each diversion that occurred after January 1, 2009, may result in civil liabilities that carry a maximum fine of \$1,000 and an additional \$500 for each day the violation continues if the violation is not corrected within 30 days of notification of the violation. (Wat. Code, § 5107, subd. (c)(1)). In addition, any person who makes a willful misstatement on a Statement commits a misdemeanor punishable by a fine not to exceed \$1,000 or by imprisonment in the county jail for not more than six months, or both. (Wat. Code, § 5107, subd. (a)). Water diverters must file Statements with the State Water Board prior to July 1 of the year succeeding the year of the diversion. (Wat. Code, § 5101).

PRIOR TO FILLING OUT FORM

Use this guide to determine if you are eligible to file this Form for Demonstrating a Water Right Claim for Cannabis Cultivation Use. You should **not** file this Form if any of the following conditions are true:

You have an existing Statement of Water Diversion and Use filed with the State Water Board for diversion of water used between January 1, 2010 and January 1, 2017;

The diversion is not a valid riparian water right;

The diversion is covered by a permit or license to appropriate water that is on file with the Division;

The diversion is covered by a registration for small irrigation uses;

The water diversion is from a spring that does not flow off the property on which it is located and from which the person's aggregate diversions do not exceed 25 acre-feet in any year;

A notice is on file with the State Water Board for the recordation of groundwater extractions and diversions in Los Angeles, Riverside, San Bernardino and Ventura Counties;

A diversion is regulated by a Watermaster appointed by the Department of Water Resources and included in annual reports filed with a court or the State Water Board by a Watermaster, which reports identify the persons who divert water and describe the general purposes and the place, the use, and the quantity of water that has been diverted from each source;

A diversion is included in annual reports filed with the court or State Water Board by a Watermaster appointed by a court or filed pursuant to statute to administer a final judgment determining rights to water, for which reports identify the persons who have diverted water and give the general place of use and the quantity that has been diverted from each source.

NOTICE PURSUANT TO INFORMATION PRACTICES ACT OF 1977 (CIV. CODE. § 1798.17)

The State Water Resources Control Board, Division of Water Rights, is requesting personal information about the diverter and the person filing the Form for Demonstrating a Water Right Claim for Cannabis Cultivation Use.

The agency official responsible for this system of records is Robert Cervantes, Senior Engineer, whose business address is 1001 I Street, 14th Floor, Sacramento, CA 95814 and whose business telephone is (916) 322-6795.

Upon request, the agency official shall inform an individual regarding the location of his or her records and the categories of any persons who use the information in these records.

The State Water Resources Control Board is empowered to require the submission of personal information by Water Code, section 5103, subdivision (a).

The submission of the name and address of the diverter and person filing the Form is mandatory. The submission of the phone number and e-mail address of the diverter and person filing the Form is voluntary.

Failure to provide the mandatory information can result in the imposition of administrative civil liability in the amount of \$500 and an additional \$250 per day for each additional day on which the violation continues if the person fails to cure the violation within 30 days after the State Water Resources Control Board has called the violation to the attention of the person.

This personal information is collected to facilitate better water management by the State Water Resources Control Board.

The State Water Resources Control Board intends to disclose personal information submitted pursuant to Civil Code, section 1798.24, subdivisions (e) or (f).

Any member of the public may inspect the information collected in this form by contacting the State Water Resources Control Board, Division of Water Rights by mail at P. O. Box 2000, Sacramento, CA 95812-2000, by fax at (916) 341-5400, by telephone at (916) 341-5300 or by e-mail at dwr@waterboards.ca.gov, or by appearing in person at the State Water Resources Control Board, Division of Water Rights file room located at 1001 I Street, 2nd Floor, Sacramento, CA 95814 during normal business hours.

A separate Form must be filed for each proposed individual diversion point from which water is diverted as set forth in the California Business and Professions Code, section 19332.2 subdivision 5. The following instructions will provide a basic description of the information requested on the Form for Supporting a Water Right Claim for Cannabis Cultivation Use.

INSTRUCTIONS

Diverter Information

The diverter is the party responsible for the diversion. As the diverter you are required to provide your name or company name and a mailing address. If someone other than the diverter filed the Form, that person must also provide his or her name and address.

1. Riparian Water Right Claim Information

Provide the requested information about your riparian water right claim as well as any associated water rights. This form may only be submitted for a claimed riparian right. A riparian right enables an owner of the land bordering a natural lake or stream to divert water on to riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. A riparian water right, like all water rights in California, is subject to Article X section 2 of the California Constitution which prohibits waste and unreasonable use of water, including the unreasonable method of use or diversion of water. Riparian rights may be used to divert the natural flow of a stream but typically may not be used to: (1) store water for later use; (2) divert water which originates in a different watershed; (3) divert water released from storage; or (4) divert return flows from groundwater use.

2. Water Course Description

Indicate the name of the body of water from which you are diverting water and the body of water it is a tributary to. Use the source name shown on a United States Geological Survey (USGS) Quadrangle. If there is no name, use "Unnamed" Stream or Spring.

3. Point of Diversion and Legal Land Description

Provide the location of the point of diversion (the location from which you are taking water from the stream), using one of the following methods: 1) identifying the location by latitude and longitude measurements; 2) identifying the location using the California Coordinate System; or 3) depicting the location of the diversion works on a specific USGS topographic map. Each separate diversion point should be reported on separate forms. If the property has been assigned an Assessor's Parcel Number (APN) by the County Assessor, you must provide the public land description to the nearest 40-acre subdivision. This information is shown on a USGS Quadrangle, and on your property deed.

About Maps: You may submit a single map showing both the point of diversion and the place of use. Maps can be found at: <http://www.store.usgs.gov>.

4. Place of Use Description

Provide a general description of the area where the water is used, and all assessor's parcel numbers associated with the place of use. For cannabis, also indicate number of cannabis plants.

About Maps: You **MUST** submit a USGS topographic map depicting the place of use. If you are also using a USGS topographic map for the point of diversion, you can draw both on a single map. Maps can be found at: <http://www.store.usgs.gov>

5. Purpose of use

Indicate the purpose of use for the diverted water. Examples of purposes of use are: domestic, dust control, fire protection, fish/wildlife protection and enhancement, fish culture, frost protection, heat protection, incidental power, industrial, milling, mining, municipal, power, recreational, snow making, stock watering, etc. Also indicate the number of acres irrigated, number of persons served for domestic use, number of animals watered, etc.

6. Projected Quantity of Water Diversion

Provide the projected quantity of water used for each month you are projecting to divert water, once the project is complete. If you do not intend to divert water in a particular month, enter "0". Once diversions commence, monthly measurement records of water diversion must be made using the best available technologies and best professional practices.

7. Projected Maximum Rate of Diversion

Provide a projected monthly maximum rate of diversion in the table provided.

8. Cannabis Cultivation Use

Provide requested information regarding your planned cannabis cultivation activities.

9. Signature

The form must be legible and signed by the person completing the form. The company name is required if applicable.
