All - Meet these Norwegian fishermen at our annual Hamilton Branch Public Fishing Access Area cleanup. We've heard from them in the past and they even signed our Save the Lake petition last year.

Paul

Dear Paul Garrido,

I am one of the two Norwegian fishermen you met at Hamilton Branch a few weeks ago. Every year I come from Norway to fish and have done so for the past 30 years! There must be no thermal curtain in these waters!

Enclosed a few pictures of the catch in Butt Lake and Hamilton Branch.

Nice to meet you, and it was a pleasure to see that something is done with all the garbage people leave behind in Hamilton Branch. I suggest you put up a few signs on the roads down on both sides of the Branch:

ATTENTION FISHERMEN!
What you bring down,
You bring back!
(cans, bottles etc.)

This might help and is worth a try in my opinion.

Looking forward to be back next September with more Norwegians to fish in your excellent waters!

Best regards from

Jan E. Ridd
