BACKGROUND

Assembly Bill (AB) 1671 (Chapter 533, Statutes of 2017) requires the State Water Board to adopt standards for backflow protection and cross-connection control through the adoption of a CCCPH on or before January 1, 2020. The statutes also require that the State Water Board hold at least two public hearings before adopting the CCCPH. Upon adoption by the State Water Board, the existing cross-connection control regulations set forth in article 1 (commencing with section 7583) and Article 2 (commencing with section 7601) of Group 4 of Subchapter 1 of Chapter 5 of Division 1 of Title 17 of the California Code of Regulations will become inoperative, and 90 days thereafter, are repealed, unless the State Water Board makes a determination not to

repeal a specific regulation. AB 1180 (Chapter 455, Statutes 2019) requires the State Water Board to include provisions for the use of a swivel-ell or changeover device to supply potable water to a dual-plumbed system during an interruption in recycled water service in the CCCPH.

The State Water Board completed the first public hearing on April 27, 2021, the second public hearing on December 5, 2022, and a Board Workshop on October 18, 2023.
