BACKGROUND

The State Water Board is implementing the Safe and Affordable Funding for Equity and Resilience (SAFER) Drinking Water Program with a set of tools, funding sources, and regulatory authorities designed to ensure that the approximately one million Californians who currently lack safe drinking water receive safe and affordable drinking water as soon as possible.

The SAFER Program is responsible for conducting an annual Needs Assessment, which consists of three components: (1) Affordability Assessment, (2) Risk Assessment, and (3) Cost Assessment. Results of the Needs Assessment are used to inform the prioritization of projects in the annual Fund Expenditure Plan for the Safe and Affordable Drinking Water Fund.

The State Water Board's Needs Analysis Unit in the Division of Drinking Water leads the implementation of the Needs Assessment in coordination with the Division of Water Quality (DWQ) and Division of Financial Assistance (DFA).

PURPOSE

This webinar will provide an opportunity for stakeholders to learn about: the 2022 Risk Assessment and Affordability Assessment results for public water systems, Risk Assessment results for State Small Water Systems and Domestic Wells, and a Cost Estimate for Senate Bill 552 infrastructure requirements.

AGENDA

Items on this Agenda are numbered for identification purposes only.
