Subject: Comment Letter – Revisions to Proposed Bay-Delta Plan Amendments

To the Water Board,

As a Californian who grew up in the Delta (my father managed a large paper mill in Antioch) and who grew up do Stream Surveys in the Feather River for the Forest Service as a Wildlife Technician, I have lived in both perspectives of water. Currently living on the Tuolumne River I have an intimate relationship with water- and yet I cannot make a direct suggestion to you, this issue has been so muddied. What I can urge you to do is avoid money pressures, group hysteria on both sides, and make a decision based on actual data collection and observable science.

You can make a difference in the world to come .

Sincerely,

Joy Lopez
