WATER DIVERSION CURTAILMENT EXTENSION NOTICE **WATER RIGHT Permit 19418 (APPLICATION NO. A017001)**

Forestar Real Estate Group
PO Box 10
Antioch, CA 94509-0901

Your Permit 19418 A017001 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit A017001 A017001 FROM SEPTEMBER 1, 2013 THROUGH SEPTEMBER 20th, 2013, UNLESS NOTIFIED EARLIER.

NOTE: Curtailment may end sooner, call or e-mail us on September 15 to verify the exact date.

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961 crico@waterboards.ca.gov.

WATER DIVERSION CURTAILMENT EXTENSION NOTICE **WATER RIGHT Permit 16304 (APPLICATION NO. A023673)**

Joseph A. Morehead
and Brenda Morehead
10373 S. Butte Rd
Sutter, CA 95982-9316

Your Permit 16304 A023673 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit A023673 A023673 FROM SEPTEMBER 1, 2013 THROUGH SEPTEMBER 20th, 2013, UNLESS NOTIFIED EARLIER.
NOTE: *Curtailment may end sooner, call or e-mail us on September 15 to verify the exact date.*

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961 crico@waterboards.ca.gov.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961 crico@waterboards.ca.gov.

WATER DIVERSION CURTAILMENT EXTENSION NOTICE **WATER RIGHT License 12205 (APPLICATION NO. A024639)**

Frank Rogers
Jim Rogers
PO Box 954
Colusa, CA 95932

Your License 12205 A024639 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License A024639 A024639 FROM SEPTEMBER 1, 2013 THROUGH SEPTEMBER 20th, 2013, UNLESS NOTIFIED EARLIER.

NOTE: *Curtailment may end sooner, call or e-mail us on September 15 to verify the exact date.*

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961 crico@waterboards.ca.gov.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License A025999 A025999 FROM SEPTEMBER 1, 2013 THROUGH SEPTEMBER 20th, 2013, UNLESS NOTIFIED EARLIER.

NOTE: *Curtailment may end sooner, call or e-mail us on September 15 to verify the exact date.*

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961 crico@waterboards.ca.gov.

WATER DIVERSION CURTAILMENT EXTENSION NOTICE **WATER RIGHT Permit 19395 (APPLICATION NO. A026121)**

Dirk Vlot
PO Box 309
Chowchilla, CA 93610

Your Permit 19395 A026121 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit A026121 A026121 FROM SEPTEMBER 1, 2013 THROUGH SEPTEMBER 20th, 2013, UNLESS NOTIFIED EARLIER.

NOTE: Curtailment may end sooner, call or e-mail us on September 15 to verify the exact date.

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961 crico@waterboards.ca.gov.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit A027213 A027213 FROM SEPTEMBER 1, 2013 THROUGH SEPTEMBER 20th, 2013, UNLESS NOTIFIED EARLIER.
NOTE: *Curtailment may end sooner, call or e-mail us on September 15 to verify the exact date.*

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961 crico@waterboards.ca.gov.

WATER DIVERSION CURTAILMENT EXTENSION NOTICE **WATER RIGHT Permit 19615 (APPLICATION NO. A027546)**

Lion Bros. Farms
c/o Jeff A. Lion
PO Box 1350
Selma, CA 93662

Your Permit 19615 A027546 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit A027546 A027546 FROM SEPTEMBER 1, 2013 THROUGH SEPTEMBER 20th, 2013, UNLESS NOTIFIED EARLIER.
NOTE: Curtailment may end sooner, call or e-mail us on September 15 to verify the exact date.

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

2151 River Plaza Dr., Ste 100
Sacramento, CA 95833-4311

Your Permit 20038 A028453 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit A028453 A028453 FROM SEPTEMBER 1, 2013 THROUGH SEPTEMBER 20th, 2013, UNLESS NOTIFIED EARLIER.
NOTE: Curtailment may end sooner, call or e-mail us on September 15 to verify the exact date.

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961 crico@waterboards.ca.gov.

WATER DIVERSION CURTAILMENT EXTENSION NOTICE **WATER RIGHT Permit 21156 (APPLICATION NO. A030613)**

V.A. Rodden Inc.
c/o William R. Jackson
4000 Ellenwood Rd
Oakdale, CA 95361-8438

Your Permit 21156 A030613 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit A030613 A030613 FROM SEPTEMBER 1, 2013 THROUGH SEPTEMBER 20th, 2013, UNLESS NOTIFIED EARLIER.
NOTE: Curtailment may end sooner, call or e-mail us on September 15 to verify the exact date.

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961 crico@waterboards.ca.gov.

WATER DIVERSION CURTAILMENT EXTENSION NOTICE **WATER RIGHT (APPLICATION NO. A99993 IP)**

Paul Fujitani
U.S. Bureau of Reclamation
3310 El Camino Ave., Ste 300
Sacramento, CA 95821

Your A99993 IP contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER A99993 IP A99993 IP FROM SEPTEMBER 1, 2013 THROUGH SEPTEMBER 20th, 2013, UNLESS NOTIFIED EARLIER.
NOTE: Curtailment may end sooner, call or e-mail us on September 15 to verify the exact date.

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

The water diversion curtailment required by this Notice does not apply if there is a section of streambed downstream of your point of diversion where there is no visible surface flow. A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961 crico@waterboards.ca.gov.
