**Subject: September 6 Weekly Update on Curtailment Status of Water Rights and Claims in the Delta Watershed**

**This email contains important information about the curtailment status of water rights and claims of right within the Sacramento-San Joaquin Delta (Delta) watershed** pursuant to Initial Orders Imposing Water Right Curtailment and Reporting Requirements in the Delta Watershed ([Order for water rights/claims under 5,000 acre-feet](#) and [Order for water rights/claims over 5,000 acre-feet](#)).

The following water rights are curtailed, effective September 7, 2022, unless and until the State Water Board advises that this determination has been updated:

1. Water rights and claims on the following Sacramento River tributary:
  - a. Post-1914 appropriative water rights in the Putah Creek subwatershed outside of the Legal Delta with a priority date of 1924 or later.
2. Post-1914 appropriative water rights in the Sacramento River watershed outside of the Legal Delta with a priority date of 1950 or later.
3. Water rights and claims on the following San Joaquin River tributary:
  - a. Post-1914 appropriative water rights, pre-1914 appropriative water right claims, and riparian water right claims in the Chowchilla River subwatershed.
4. All post-1914 appropriative water rights and pre-1914 appropriative water right claims in the San Joaquin River watershed outside of the Legal Delta.
5. Post-1914 appropriative water rights in the Legal Delta with a priority date of 1950 or later.

Curtailments are expected to continue through the summer and early fall until significant precipitation occurs. Water supply forecasts will continue to be evaluated regularly to determine if, when, and to what extent the further re-imposition or suspension of curtailments may be appropriate. The next curtailment status update will be provided by email and web posting no later than September 13, 2022. Please check the [Delta Watershed Curtailment Status List](#) for the current curtailment status of each water right and claim in the Delta watershed.

Today's curtailment status update is based on the output of the methodology for the calendar month of September. As such, today's update considers observed water supply data and forecasts from the California Nevada River Forecast Center (CNRFC) that were updated on September 6, 2022. The 50 percent exceedance water supply forecast was selected to determine curtailments at this time. Demand data informing curtailments are based on reported diversions from 2018 as adjusted through an ongoing QA/QC process.

Due to drought conditions, there has been a significant reduction in rice production in the Sacramento Valley. As a result, historic return flow factors associated with draining rice fields for harvest in prior years are not appropriate for September 2022. Therefore, the methodology was adjusted to retain return flows estimated for August in the Sacramento River watershed, which are more consistent with current reductions in rice production.

The determination of water unavailability used to inform curtailments is based on the [Water Unavailability Methodology for the Delta Watershed](#). The data used to support curtailments and other relevant information is available on the State Water Board's [FTP site](#). To access the documents posted on the FTP site, please email [Bay-Delta@waterboards.ca.gov](mailto:Bay-Delta@waterboards.ca.gov) to obtain login credentials.

Water right holders and claimants are responsible for monitoring their curtailment status online on the [Delta Watershed Curtailment Status List](#). Notice of changes to curtailment status will not be mailed. For those with limited internet access, a pre-recorded curtailment summary can be heard on the Delta Curtailment Status phone line at (916) 323-4643.

For more information about drought in the Delta watershed, please visit the [Delta Drought webpage](#). For more information about curtailment compliance and responses to the Initial Orders Imposing Water Right Curtailment and Reporting Requirements in the Sacramento-San Joaquin Delta Watershed, please visit the [Curtailment Compliance and Responses webpage](#). The Curtailment Compliance and Responses tracker is updated regularly and can be filtered to see the latest changes. If you have any questions, you may send an email to [Bay-Delta@waterboards.ca.gov](mailto:Bay-Delta@waterboards.ca.gov) or call the Delta Drought phone line at (916) 319-0960.
