^[1] Total Acre-Foot per Annum will be considered equal to the diversion rate multiplied by the length of the direct diversion season, and the total collection amount for storage, unless otherwise specified. If the permit or license includes both direct diversion and storage, the two amounts will be additive, unless a total annual amount is specified.

^[2] Due under specific circumstances such as: project is initiated prior to the State Water Board issuing a permit authorizing the diversion; applicant requests a delay in processing application; applicant is lead agency under California Environmental Quality Act (CEQA) and has not adopted or certified a final environmental document for the project within two years after the water right application is noticed; applicant fails to provide requested supplemental information; or Division has determined that a permit may be issued but the applicant has failed to pay filing fees.

^[3] Due under specific circumstances such as: petitioner diverts water prior to the State Water Board approving the requested change; petitioner requests a delay in processing petition; petitioner is lead agency under CEQA and has not adopted or certified a final environmental document for the project within two years after the petition is noticed; or petitioner fails to provide requested supplemental information.

^[4] Total Acre-Foot per Annum will be considered equal to the diversion rate multiplied by the length of the direct diversion season, and the total collection amount for storage, unless otherwise specified. If the application includes both direct diversion and storage, the two amounts will be additive, unless a total annual amount is specified.

^[5] This filing fee is inclusive of a non-refundable \$250 fee for an initial review.
