

STATE WATER RESOURCES CONTROL BOARD
RESOLUTION NO. 81-14

APPROVAL OF BASIN PLAN AMENDMENTS FOR THE CENTRAL VALLEY REGION
AND PARTIAL CERTIFICATION OF THE NONDESIGNATED AREA 208 PLAN

WHEREAS:

1. The State Board is the responsible agency for conducting water quality management planning in the State's nondesignated area pursuant to Section 208 of PL 92-500 and subsequent amendments.
2. A nondesignated area 208 workplan, approved by the State Board in March 1978, identified planning issues to be addressed which included working with county governments to develop local water quality management plans.
3. Based on 208 planning activities, the Central Valley Regional Board has adopted several basin plan amendments which address water quality management issues in Shasta and Nevada Counties. These basin plan amendments have been submitted to the State Board for approval and certification as partial completion of the nondesignated area 208 plan.
4. A public hearing on the proposed basin plan amendments was held by the Regional Board on December 5, 1980.
5. A CEQA functional equivalent document has been prepared, pursuant to Public Resources Code Section 21080.5 and the Federal Clean Water Act (PL 92-500 and 95-217) and the State Board concurs with the finding that the basin plan amendments will not have a significant adverse effect on the environment.

THEREFORE BE IT RESOLVED:

That the Board:

1. Approves Resolution No. 80-219, amending the Basin Water Quality Control Plan for the Central Valley Region with respect to local water quality management plans for Shasta and Nevada Counties.
2. Certifies, pursuant to 40 CFR, Part 35.1523-2 and 35.1523-3, the basin plan amendments as representing partial completion of the State nondesignated area 208 plan.
3. That Regional Board submit progress reports on the Nevada County progress at six month intervals until the Board of Supervisor's direction has been acted upon.

CERTIFICATION

The undersigned, Executive Director of the State Water Resources Control Board, does hereby certify that the foregoing is full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the State Water Resources Control Board held on February 19, 1981.

Clint Whitney
Executive Director
