

STATE WATER RESOURCES CONTROL BOARD
RESOLUTION NO. 81-53

LOCATION AND ALIGNMENT OF THE LNG TERMINAL INTAKE STRUCTURE
AND OFFSHORE CONDUITS AS REQUESTED BY WESTERN LNG TERMINAL
ASSOCIATES

WHEREAS:

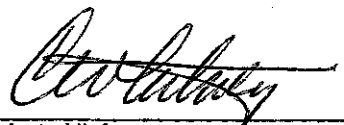

1. The State Water Resources Control Board has in Provision C.4 of the revisions to NPDES Permit No. CA0048721 adopted by State Board Order No. WQ 79-34 dated September 20, 1979, required a thorough area reconnaissance survey to be performed by an independent entity before specific alignment and caisson location can be determined;
2. The independent reconnaissance survey required by Provision C.4 was conducted by the California Department of Fish and Game. The survey was completed and submitted in its report "Final Report of the LNG Terminal Pre-Design Marine Survey" dated May 1980.
3. The Western LNG Terminal Associates subsequently requested approval of the location and alignment of the intake structure and offshore conduits.

THEREFORE BE IT RESOLVED:

That the State Water Resources Control Board approves the location and alignment of the LNG Terminal Intake Structure and Offshore Conduits as requested by Western LNG Terminal Associates and as designated on Drawing No. 453344-00-5-073, Revision 2.

CERTIFICATION

The undersigned, Executive Director of the State Water Resources Control Board, does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the State Water Resources Control Board held on May 21, 1981.

Clint Whitney
Executive Director
