STATE WATER RESOURCES CONTROL BOARD
RESOLUTION NO. 2009-0052

APPROVING AN AMENDMENT TO THE WATER QUALITY CONTROL PLAN FOR THE
LOS ANGELES REGION (BASIN PLAN) TO REVISE THE WASTE LOAD ALLOCATIONS
FOR THE CALLEGUAS CREEK WATERSHED NITROGEN COMPOUNDS AND
RELATED EFFECTS TOTAL MAXIMUM DAILY LOAD (TMDL)

WHEREAS:

1. On October 24, 2002, the Los Angeles Regional Water Quality Control Board (Los Angeles
   Water Board) adopted an amendment to the Basin Plan, Resolution No. 02-017, to include a
   TMDL for Nitrogen compounds and related effects in the Calleguas Creek watershed. The
   TMDL was approved by the State Water Resources Control Board (State Water Board) on
   March 19, 2003, the Office of Administrative Law (OAL) on June 5, 2003, and the
   U.S. Environmental Protection Agency (U.S. EPA) on June 20, 2003.

2. On September 11, 2008, the Los Angeles Water Board adopted Resolution No. R4-2008-
   009 amending the Basin Plan to revise the waste load allocations for the Calleguas Creek
   Watershed Nitrogen Compounds and Related Effects TMDL.

3. The Los Angeles Water Board found that the analysis contained in the Final Project Report,
   the California Environmental Quality Act (CEQA) "substitute documentation" for the
   proposed Basin Plan amendment, including the CEQA Checklist, the staff report, and the
   responses to comments prepared by Los Angeles Water Board staff and Resolution R4-
   2008-009 adopted by the Los Angeles Water Board complies with the requirements of the
   State Water Board’s certified regulatory CEQA process, as set forth in the California Code of
   Regulations, Title 23, section 3775 et seq.

4. The State Water Board finds that, in amending the Basin Plan, the Los Angeles Water
   Board complied with the requirements set forth in sections 13240, 13245, and 13246 of the
   California Water Code. The State Water Board also finds that the regulatory action meets
   the “Necessity” standard of the Administrative Procedures Act, Government Code, section
   11353, Subdivision (b).

5. The Los Angeles Water Board found that adoption of this amendment would result in no
   adverse effect on wildlife, and the amendment would be consistent with the State
   Antidegradation Policy (State Water Board Resolution No. 68-16) and Federal

6. A Basin Plan amendment does not become effective until approved by the State Water
   Board and until the regulatory provisions are approved by OAL. The TMDL must also be
   approved by U.S. EPA.

7. Los Angeles Water Board staff determined that minor, non-substantive changes to the
   language of the Basin Plan amendment were necessary to correct minor, non-substantive
   errors, to improve clarity and consistency. The Los Angeles Water Board’s Executive
   Officer made these minor changes in a memorandum dated January 23, 2009.
THEREFORE BE IT RESOLVED THAT:

The State Water Board:

1. Approves the amendment to the Basin Plan as adopted under Los Angeles Water Board Resolution No. R4-2008-009 as corrected by the Los Angeles Water Board Executive Officer on January 23, 2009.

2. Authorizes the Executive Director or designee to submit the amendment adopted under Los Angeles Water Board Resolution No. R4-2008-009 to OAL for approval of the regulatory provisions and to U.S. EPA for approval of the TMDL.

CERTIFICATION

The undersigned Clerk to the Board does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the State Water Resources Control Board held on June 16, 2009.
