**Subject:** "2/2/16 BOARD MEETING (Conservation Extended Emergency Regulation)."

**To Whom it May Concern,**

**As a San Juan Water District customer, we would like you to consider reevaluating the water supply conditions in April as opposed to early February when the water supply conditions are better known. We feel the proposed 33% reduction is far too high due to the winter weather storms we have experienced and will be coming and the snow in the Sierras.**

**Please consider this request in your evaluation.**

**Best regards,**

**Dave & Teresha Lee**
