Subject: Water Regulations

Dear Board Members:

It is unwise and irresponsible to consider a **33 percent reduction** over 2013 water use **at this time**.
WAIT UNTIL April when the water situation is clearer.
You will lose all credibility with the public if you jump the gun at this early date.
Be prudent, but **DO NOT BE FOOLISH and PREMATURE!!!!**

I am a Water Customer who has exceeded the 36% reduction
In the San Water District

William Hatch
