## Appendix B. Greenhouse Gas Reduction Fund Requirements

The expenditures from the Fund with moneys originating from the GGRF will be used for the purpose of facilitating the achievement of reductions of greenhouse gas emissions or to improve climate change adaptation and resiliency of GGRF Disadvantaged Communities or GGRF Low-Income Households or Communities. GGRF expenditures from the Fund will be administered in compliance with the Funding Guidelines for Agencies that Administer California Climate Investments (GGRF Funding Guidelines, available at: <https://ww2.arb.ca.gov/resources/documents/cci-funding-guidelines-administering-agencies>). The key items from the August 2018 GGRF Funding Guidelines for Program Administration (Section IV.A. of the GGRF Funding Guidelines) are below, along with a description of how the State Water Board will ensure compliance with that element.

### **GGRF Funding Guidelines Key Item: Identify program-specific statutory requirements (Section IV.A.1)**

The Safe and Affordable Drinking Water Fund is established pursuant to Health and Safety Code section 116766. Chapter 4.6 of Part 12 of Division 104 of the Health and Safety Code establishes the requirements for use of the Fund. The Policy for the Development of the Fund Expenditure Plan for the Safe and Affordable Drinking Water Fund (adopted by the State Water Board on May 5, 2020) and this Fund Expenditure Plan further describe applicable requirements associated with administering the SADW Fund. A Fund Expenditure Plan will be adopted by the State Water Board annually and reflect any applicable statutory changes.

### **GGRF Funding Guidelines Key Item: Ensure coordinated communication (Section IV.A.2)**

- All funding recipients that receive allocations from the Fund that originate from the GGRF are required to include recognition of funding through the California Climate Investments (CCI) as follows:
  - **Branding and logo.** The “California Climate Investments” logo and name serve to bring under a single brand. All funding recipients must display the CCI logo on equipment and signage, as applicable, to acknowledge the funding source.
    - For stationary projects this may include, but is not limited to, a sign at the project site to acknowledge the funding source. The sign may include, for example, the CCI logo and the names (and/or logos) of other partners, organizations, or individuals.
    - For other project types, such as equipment and consumer-based incentives, funding recipients are also encouraged to identify the funding source by using a decal, sticker, or other signage that includes the CCI logo. Guidance on the CCI logo usage, signage guidelines, and high-resolution files are contained in a style guide available at: <http://www.caclimateinvestments.ca.gov/logo-graphics-request>.

## Appendix B. Greenhouse Gas Reduction Fund Requirements

- Funding source acknowledgement. The below language must be used on websites and included in announcements, press releases, and publications: “The [INSERT PROJECT NAME] is part of California Investments, a statewide program that put billions of Cap-and-Trade dollars to work reducing GHG emissions, strengthening the economy, and improving public health and the environment – particularly in DACs. The Cap-and-Trade program also creates a financial incentive for industries to invest in clean technologies and develop innovative ways to reduce pollution. California Climate Investments projects include affordable housing, renewable energy, public transportation, zero-emission vehicles, environmental restoration, more sustainable agriculture, recycling, and much more. At least 35 percent of these investments are located within and benefiting residents of DACs, low-income communities, and low-income households across California. For more information, visit the California Climate Investments website at: [www.caclimateinvestments.ca.gov](http://www.caclimateinvestments.ca.gov).”
- Coordinated social media and website. Recognition of funding under CCI program extends to publications, websites, signage, invitations, and other media-related and public outreach products. The email address: [CCIPress@arb.ca.gov](mailto:CCIPress@arb.ca.gov) will be included on any distribution lists and the twitter handle @CAClimateInvest Twitter will be posted on websites.

### **GGRF Funding Guidelines Key Item: Support transparency and provide public access to information on program activities and outcomes (Section IV.A.3)**

To support transparency and public accountability, the State Water Board provides public access to information on the Fund and the broader SAFER Program in a variety of ways. Consistent with the GGRF Funding Guidelines, the State Water Board maintains information on its website that provides up-to-date program information, including:

**Funding opportunities.** The State Water Board continually accepts applications to support the drinking water needs of California communities. The Financial Assistance Application Submittal Tool (FAAST – [www.faast.waterboards.ca.gov](http://www.faast.waterboards.ca.gov)) is the gateway that is used to apply for funding and also can be used by the public to view what applications have been submitted. Since different applicants have worked with the State Water Board in different program areas, funding opportunity information is also posted on its SAFER Program, Office of Sustainable Water Solutions, Division of Financial Assistance, and Drinking Water State Revolving Fund web pages. The State Water Board staff and TA providers are also available to assist applicants representing DACs to apply for funding. The State Water Board will also announce funding opportunities using the California Climate Investments Events Calendar available at: [www.arb.ca.gov/cci-events](http://www.arb.ca.gov/cci-events).

**Public outreach events.** As described elsewhere in this Plan (see Section IX.A), the State Water Board is developing a Communication and Outreach Plan for the SAFER Program and is implementing a robust community engagement and public outreach

## Appendix B. Greenhouse Gas Reduction Fund Requirements

process. The State Water Board is providing materials in other languages and provides language interpretation services. In addition, the State Water Board will conduct events and select locations and timing to encourage stakeholder and local community participation.

**All submitted applications and/or proposals – prior to funding decisions.** The GGRF Funding Guidelines require that administering agencies with programs that fund projects with competitive grant, loan, or contract solicitations, administering agencies must post basic information about the applications and proposals. In general, the State Water Board is accepting applications and proposals continuously and will provide funding to qualifying projects based on the prioritization discussed in Sections IV through VIII of this Plan.

Should the State Water Board conduct a competitive solicitation, the State Water Board will post the applications and/or proposals that are submitted for consideration at least ten days before the State Water Board's authorized representative makes a decision on funding awards. The minimum items that will be posted include:

- For each project application or proposal: Name of applicant; brief description of proposed project, including location; amount of funding requested; and whether the project is expected to provide benefits to priority populations.
- For each solicitation: A reference or website link to the project evaluation and selection criteria and solicitation materials.

**Final project selections – after funding decisions.** The State Water Board will post final project selections after the final decisions on funding awards have been made.

**Points of contact and resources for information and TA.** As discussed previously, the State Water Board's web pages, Fact Sheets, press releases, social media posts, and other outreach material will provide contact information for the public to ask questions or obtain additional information and TA.

**Project results, including greenhouse gas (GHG) emission reductions and co-benefits.** State Water Board staff will work with California Air Resources Board (CARB) staff to ensure the GHG emission reductions and co-benefits are evaluated in a manner consistent with CARB established protocols and procedures. The results of the California Climate Investments projects will be posted or a link provided to the California Climate Investments website for the Annual Report to the Legislature ([www.caclimateinvestments.ca.gov/annualreport](http://www.caclimateinvestments.ca.gov/annualreport)) and the CARB website for the online map ([www.arb.ca.gov/ccimap](http://www.arb.ca.gov/ccimap)). The information that the public can access will include the project location (e.g., address, census tract), funding amount, GHG emission reductions, co-benefits, and benefits to priority populations.

**Opportunities for continued public engagement.** The State Water Board will provide multiple options to enable the public to remain involved and informed about investments

## Appendix B. Greenhouse Gas Reduction Fund Requirements

(e.g., social media, list serves, Advisory Group meetings) after awards have been made (see Section IX.A).

### **GGRF Funding Guidelines Key Item: Establish policies and procedures for project monitoring, accountability, and audits (Section IV.A.4)**

As with the other funding programs it administers, the State Water Board is subject to Legislative and Administration oversight, including audits by the Bureau of State Audits, Department of Finance, other State oversight agencies, or a third-party auditor. The State Water Board will apply its audit policies, and implement procedures to monitor all its funding programs, including projects funded by California Climate Investments and to conduct its own audits, inspections and project or program reviews of funding recipients, both during and after project implementation. Funding agreements that the State Water Board enters into with funding recipients require recipients to make records available, if requested, to support project or program reviews or audits.

### **GGRF Funding Guidelines Key Item: Conduct public outreach and encourage community engagement, particularly for priority populations (Section IV.A.5)**

The State Water Board is committed to a robust public outreach and community engagement process. Section VIII.E of the Policy and Section IX.A of this Plan described community engagement and public outreach activities and approaches.

## Appendix C. SAFER Program Encumbrances for FY 2019-20 (as of June 2020)

<sup>1</sup> Type of solution provides some sort of O&M Support

<sup>2</sup> Systems receiving TA with no cost information are funding through SRF set-aside funds. Total project cost is unknown until assistance is complete.

<sup>3</sup> Potential interim funding amounts are based on providing replacement water for one year.

<sup>4</sup> Number indicates the solution process category as of March 2020: (1) Agreement Mailed, (2) Agreement Routing, (3) Funding Decision in Process, (4) Application Complete, (5) Application Incomplete

\*Part of County of Fresno, Westside Groundwater Project. Refer to FCSA #30/ El Porvenir.

\*\*Part of Frazier Park PUD, Frazier Park/Lake of the Woods Regional Consolidation Planning Project. Refer to Lake of the Woods MWC.

\*\*\*Part of Los Molinos CSD, LMCSA Arsenic Compliance and Consolidation Project. Refer to Los Molinos Comm. Services Dist.

\*\*\*\*Part of Rosamond CSD, RCSA Arsenic Regional Consolidation Project. Refer to 60th Street Assoc. Water System.

\*\*\*\*\*Part of East Niles CSD, North Weedpatch Hwy Water System Consolidation Project. Refer to Del Oro WC - Country Estates Dist.

Key:

OS	On Schedule to Compliance
DA	Delayed/Further Action Needed
UR	Under Review for Next Steps

System Size: Small water system (less than 3,300 connections)  
 Expanded small water system (between 3,301 and 6,600 connections)  
 Large water system (greater than 6,600 connections)

E	Existing Funding with approved cost
P	Potential Funding for FY 20/21 with requested cost
PA	Potential Funding after FY 20/21 with requested cost, if known
U	Unknown Funding
M	Mandatory Process Initiated
V	Voluntary Consolidation Process Underway
D	Consolidation Discussions Initiated
A	Administrator Discussions Initiated

Technical Assistance (TA) = Assistance with preliminary planning, TMF assessments, engineering assistance, and project management

Interim = Interim replacement water (bottled water, hauled water, point of use devices)

Planning = Funding for feasibility studies, project design documents, and engineering/environmental reports

Construction = Funding for construction of distribution system replacement/repair, water meter installation, water treatment systems, source water construction/repair, and consolidation

Disadvantaged (DAC) Status: (D) - Disadvantaged, (SD) - Severely Disadvantaged, (ND) - Non Disadvantaged, (TBD) - To be determined

<sup>1</sup> Type of solution provides some sort of O&M Support

<sup>2</sup> Systems receiving TA with no cost information are funding through SRF set-aside funds. Total project cost is unknown until assistance is complete.

<sup>3</sup> Potential interim funding amounts are based on providing replacement water for one year.

<sup>4</sup> Number indicates the solution process category as of March 2020: (1) Agreement Mailed, (2) Agreement Routing, (3) Funding Decision in Process, (4) Application Complete, (5) Application Incomplete

\* System is on this list for exceeding the previously adopted hexavalent chromium MCL. DAC status has not been reviewed.

\*\* Risk categories consistent with definitions in the DWSRF Policy ([https://www.waterboards.ca.gov/drinking\\_water/services/funding/documents/srf/dwsrf\\_policy/dwsrf\\_policy\\_final.pdf](https://www.waterboards.ca.gov/drinking_water/services/funding/documents/srf/dwsrf_policy/dwsrf_policy_final.pdf))

\*\*\*Part of Rosamond CSD, RCSD Arsenic Regional Consolidation Project. Refer to Antelope Valley Mobile Estates.

\*\*\*\*Part of Colusa County, CSA1/CSA2 Consolidation Project. Refer to Colusa CSA 1 – Century Ranch.

## Appendix F. FY 2020-21 Funding Solution List for Potential At-Risk Systems

Key:

Technical Assistance (TA) = Assistance with preliminary planning, TMF assessments, engineering assistance, and project management

Interim = Interim replacement water (bottled water, hauled water, point of use devices)

Planning = Funding for feasibility studies, project design documents, and engineering/environmental reports

Construction = Funding for construction of distribution system replacement/repair, water meter installation, water treatment systems, source water construction/repair, and consolidation

Disadvantaged (DAC) Status: (D) - Disadvantaged, (SD) - Severely Disadvantaged, (ND) - Non Disadvantaged, (TBD) - To be determined

System Size: Small System (3,300 connections or less)  
Expanded Small System (3,301 to 6,600 connections)  
Large System (6,601 connection or more)

E	Existing Funding with approved cost, if known
P	Potential Funding for FY 20/21 with requested cost, if known
PA	Potential Funding after FY 20/21 with requested cost, if known
U	Unknown Funding
M	Mandatory Process Initiated
V	Voluntary Consolidation Process Underway
D	Consolidation Discussions Initiated
A	Administrator Discussions Initiated

## Appendix G. Groundwater Units in the 80th percentile of Needs Assessment Ranking

The information presented below is based on the 2019 Needs Assessment for domestic wells. Location information on Groundwater Units can be found at: <https://gamagroundwater.waterboards.ca.gov/gama/gamamap/public/Default.asp> (select 'Groundwater Basins' as the GIS Filter). General information in Groundwater Units can be found at: <https://pubs.er.usgs.gov/publication/ds796>.

Groundwater Unit Name	Needs Assessment Ranking	CVSALTS priority status	SGMA priority status
180/400 FOOT AQUIFER; EAST SIDE AQUIFER; SEASIDE AREA; LANGLEY AREA; CORRAL DE TIERRA AREA (3-4.1)	80th - 100th percentile	NA	High

## Appendix H. List of Programs to Assist Households Supplied by Domestic Wells

Assistance Program	Description	Funding Program	Approved Funding Amount	Approximate # of Households	Location of Households
Self-Help Enterprises Regional Bottled Water Program	The Self-Help Enterprises Regional Bottled Water Program will provide bottled water to households served by public water systems and private household wells, located in the Self-Help Enterprises Service Area (Kern, Kings, Tulare, Fresno, Madera, Merced, Mariposa and Stanislaus), that have urgent drinking water needs.	SB 200 Safe and Affordable Drinking Water Program (SAFER)	\$ 2,094,631	300	Kern, Kings, Tulare, Fresno, Madera, Merced, Mariposa and Stanislaus Counties
Community Action Partnership of Madera County (CAPMC) Madera County Wide Emergency Bottled Drinking Water Program	The Program will fund the continuation of the bottled water distribution for residents enrolled in the Household Tanks & Hauled Water Program. It can also fund any other DAC homes in Madera County served by an existing public water system that have been impacted with a contaminated drinking water supply.	SB 200 Safe and Affordable Drinking Water Program (SAFER)	\$ 115,500	150	Madera County
Tulare Countywide Bottled Water Program	The Tulare Countywide Bottled Water Program provides interim bottled water assistance to households in the County, served by a private domestic well or a public water system, who have urgent drinking water needs.	Cleanup and Abatement	\$ 200,000	600	Tulare County

## Appendix H. List of Programs to Assist Households Supplied by Domestic Wells

Assistance Program	Description	Funding Program	Approved Funding Amount	Approximate # of Households	Location of Households
Rural Community Assistance Corporation (SB108 Drinking Water Well Replacement Program)	The Program provides funding for the replacement of failed drinking water wells for disadvantaged households that are served by domestic wells or for water systems serving disadvantaged communities with fewer than 15 service connections.	SB 108	\$ 1,850,000	30+	Statewide except in Self-Help Enterprises Service Area (Fresno, Kern, Kings, Madera, Mariposa, Merced, Stanislaus, and Tulare)
Self Help Enterprises (SB108 - Drinking Water Well Replacement Program)	The Program provides funding for the replacement of failed drinking water wells for disadvantaged households that are served by domestic wells or for water systems serving disadvantaged communities with fewer than 15 service connections.	SB 108	\$ 6,150,000	133+	Fresno, Kern, Kings, Madera, Mariposa, Merced, Stanislaus, and Tulare
Self-Help Kings, Kern, and Merced County-wide Bottled Water Program	The Program provides bottled water for DAC participants enrolled in the Household Tanks & Hauled Water Program	CAA	\$ 82,980	138	Kings, Kern and Merced County
Self-Help Enterprises Tanks & Hauled Water Program	The Program will fund the continuation of the Tanks & Hauled Water Program which was previously managed by CalOES.	AB 74 Provision 2.6(h)	\$ 2,500,000	varies	Kern, Kings, Tulare, Fresno, Madera, Merced, Mariposa and Stanislaus Counties

## Appendix H. List of Programs to Assist Households Supplied by Domestic Wells

Assistance Program	Description	Funding Program	Approved Funding Amount	Approximate # of Households	Location of Households
USDA Rural Development Household Water Well System Grants	The Program provides funding to qualified nonprofits and tribes to create a revolving loan fund for eligible individuals who own and occupy a home in an eligible rural area. The fund may be used to construct, refurbish, or service individually owned household water well systems. Terms for the loans include one percent fixed interest rate, 20-year maximum term, and an \$11,000 maximum loan per household.	USDA-federal funds	varies	varies	<ul style="list-style-type: none"> <li>• Rural areas and towns with populations of 50,000 or less</li> <li>• Tribal lands in rural areas</li> </ul>
USDA Rural Development Single Family Housing Repairs Loans And Grants	<p>The Program, also known as the Section 504 Home Repair program, provides loans to very-low-income homeowners to repair, improve or modernize their homes or grants to elderly very-low-income homeowners to remove health and safety hazards.</p> <ul style="list-style-type: none"> <li>• Maximum loan is \$20,000.</li> <li>• Maximum grant is \$7,500.</li> <li>• Loans and grants can be combined for up to \$27,500 in assistance.</li> </ul>	USDA - federal funds	varies	varies	Generally, rural areas with a population less than 35,000 are eligible.

## Appendix I. List of Programs to Assist Households and Schools whose Tap Water Contains Contaminants

Assistance Program	Description	Funding Program	Approved Funding Amount	Approximate # of Schools/ Households	Location of Schools/ Households
Rural Community Assistance Corporation (RCAC) Statewide Bottled Water for Schools Program	The Statewide Bottled Water for Schools Program is for the purchase and delivery of bottled drinking water for schools serving kindergarten or any of grades 1-12, and preschools and child day care facilities, located on public school property statewide, through the Work Completion Date or until a long-term solution, or other interim solution, is in place for each site, whichever occurs first. The funding provides a maximum of 1/4 gallon per person per school day for up to two years at any one school.	SB 200 Safe and Affordable Drinking Water Fund	\$ 2,500,000	100 Schools	Statewide
Community Water Center Central Coast Multi-County Bottled Water Project (Region 3)	The Program will provide bottled drinking water to approximately two hundred and fifty (250) eligible Disadvantaged Households within the jurisdiction of the Central Coast Regional Water Quality Control Board (Regional Board) through the Work Completion Date. To be eligible for Project services, Disadvantaged Households must be served by a private well or small water system with a Contaminated Water Supply and must be located outside of any area already provided bottled drinking water.	SB 200 Safe and Affordable Drinking Water Fund	\$ 909,964	250 households	Santa Cruz, San Benito, San Luis Obispo, Santa Barbara, and portions of Santa Clara, Monterey, and Ventura Counties

## Appendix I. List of Programs to Assist Households and Schools whose Tap Water Contains Contaminants

Assistance Program	Description	Funding Program	Approved Funding Amount	Approximate # of Schools/ Households	Location of Schools/ Households
Self-Help Enterprises Regional Bottled Water Program	The Self-Help Enterprises Regional Bottled Water Program will provide bottled water to households served by public water systems and private household wells, located in the Self-Help Enterprises Service Area (Kern, Kings, Tulare, Fresno, Madera, Merced, Mariposa and Stanislaus), that have urgent drinking water needs.	SB 200 Safe and Affordable Drinking Water Fund	\$ 2,094,631	300 households	Kern, Kings, Tulare, Fresno, Madera, Merced, Mariposa and Stanislaus Counties
Self-Help Enterprises Household Solutions Program	The Household Private Wells Assistance Program will conduct outreach to potential households, located in the Self-Help Enterprises Service Area (Kern, Kings, Tulare, Fresno, Madera, Merced, Mariposa and Stanislaus), served by private wells and will conduct well testing and provide interim solutions including point of entry and/or point of use (POE/POU) filtration device to those participating households that have water quality issues.	SB 200 Safe and Affordable Drinking Water Fund	\$ 1,821,500	300 households	Kern, Kings, Tulare, Fresno, Madera, Merced, Mariposa and Stanislaus Counties

## Appendix I. List of Programs to Assist Households and Schools whose Tap Water Contains Contaminants

Assistance Program	Description	Funding Program	Approved Funding Amount	Approximate # of Schools/ Households	Location of Schools/ Households
Drinking Water for Schools Round 2- RCAC	The Drinking Water for School Grant Program will provide assistance to eligible school districts through two nonprofit organizations that will act as Program Administrators. These Program Administrators will develop and implement projects for schools serving disadvantaged communities. The first priority will be to provide interim solutions such as Point of Use treatment to schools with impaired water quality. Projects may also be funded to improve access to drinking water if sufficient budget remains after meeting the water quality impairment needs.	SB 862 (Stats. 2018, ch. 449),  then amended by Assembly Bill (AB) 72 (Stats. 2019, ch. 1)	\$ 2,579,000	40 schools	Statewide

SB 862 (Stats. 2018, ch. 449),  then amended by Assembly Bill (AB) 72 (Stats. 2019, ch. 1)	\$ 3,856,000	60 schools	8 counties in San Joaquin valley
Tulare Countywide Bottled Water Program	The Tulare Countywide Bottled Water Program provides interim bottled water assistance to households in the County, served by a private domestic well or a public water system, who have urgent drinking water needs.	Cleanup and Abatement Account (CAA)	\$ 200,000	600 households	Tulare County
Self-Help Enterprises Tulare County POU Pilot Program	The Program will provide domestic well testing and installation of Point-of-Use (POU) devices to homeowners in Tulare County who are currently or would like to enroll in the County-wide bottled Water Program.	CAA	\$ 576,750	250 households	Tulare County

## Appendix J. State Cross-Cutters

All applicable state laws apply to a financial assistance recipient's use of funding provided by the State Water Board. Certain laws apply regardless of funding source. These cross-cutting state laws include, but are not limited to, the following:

- a. The California Environmental Quality Act (CEQA), as set forth in Public Resources Code sections 21000 et seq. and in the CEQA Guidelines at Title 14, Division 6, Chapter 3, Section 15000 et seq.
- b. Water Conservation requirements, including regulations in Division 3 of Title 23 of the California Code of Regulations.
- c. Monthly Water Diversion Reporting requirements, including requirements set forth in Water Code section 5103.
- d. Public Works Contractor Registration with Department of Industrial Relations requirements, including requirements set forth in Sections 1725.5 and 1771.1 of the Labor Code.
- e. Volumetric Pricing & Water Meters requirements, including the requirements of Water Code sections 526 and 527.
- f. Urban Water Management Plan requirements, including the Urban Water Management Planning Act (Wat. Code, § 10610 et seq.).
- g. Urban Water Demand Management requirements, including the requirements of Section 10608.56 of the Water Code.
- h. Delta Plan Consistency Findings requirements, including the requirements of Water Code section 85225 and California Code of Regulations, title 23, section 5002.
- i. Agricultural Water Management Plan Consistency requirements, including the requirements of Water Code section 10852.
- j. Charter City Project Labor Requirements, including the requirements of Labor Code section 1782 and Public Contract Code section 2503.

## Appendix J. State Cross-Cutters

- k. Public agency conflict of interest laws, including the Political Reform Act (Gov. Code, § 81000 et seq.).
- l. The Drug-Free Workplace Act (Gov. Code, §§ 8350-8357.)
- m. State non-discrimination laws. (Gov. Code, § 11135; Cal. Code Regs, tit. 2, § 11140 et seq.)
- n. State prevailing wage laws. Division of Industrial Relations (DIR) requirements may be found at: <http://www.dir.ca.gov/lcp.asp>. For more information, please refer to DIR's Public Works Manual at: <http://www.dir.ca.gov/dlse/PWManualCombined.pdf>.
- o. Union activities (Gov. Code §§ 16645-16649.)
