Dear Ms. Andrews:

LAND DISPOSAL PROGRAM: TRANSMITTAL OF CLOSURE AND POST-CLOSURE WASTE DISCHARGE REQUIREMENTS, ORDER NO. R3-2018-0001, FOR THE CEMEX DAVENPORT CEMENT PLANT CKD LANDFILLS

The Central Coast Regional Water Quality Control Board (Water Board) adopted closure and post-closure Waste Discharge Requirements (WDR) Order No. R3-2018-0001 for the CEMEX Davenport Cement Plant Cement Kiln Dust (CKD) Landfills during its February 8-9, 2018 meeting in Watsonville. The WDR requires CEMEX to formally close the inactive North CKD Area and associated drainages. To facilitate closure, the WDR requires CEMEX to submit a Final Closure Plan by **April 1, 2018**, pursuant to California Code of Regulations Title 27 §20430 and consistent with the Executive Officer's Conceptual Closure Plan Conditional Approval Letter, dated August 24, 2017. Please note, the WDR includes a Compliance Schedule Summary Table (page 30), summarizing required tasks, deliverables and associated due dates.

Water Board staff posted the adopted WDR on our website at:

https://www.waterboards.ca.gov/centralcoast/board_decisions/adopted_orders/

Additional information about the CEMEX Davenport Cement Plant CKD Landfills is available on our GeoTracker website at:

http://geotracker.waterboards.ca.gov/profile_report?global_id=L10009974641

If you have any questions regarding the WDR, please contact **Martin Fletcher** at (805) **549-3694** or martin.fletcher@waterboards.ca.gov, or his supervisor Matthew Keeling, at (805) 549-3685.

Sincerely,

John M. Robertson
Executive Officer
