ATTN: Mr John Rokke, Water Resource Control Engineer
Central Coast Water Board

SUBJECT: Comment Letter - Cambria WDR Update

As a lot owner in Cambria I'm very am aware of the water needs of our community and highly recommend that you approve the EWS Project, which includes approval of a new brine-disposal method per Draft Updated Order No. R3-2014-0050. My neighbors and I need will EWS/SWF to ensure that our health and safety is maintained in the years to come.

I will not be able to attend but please ensure that my wishes are heard at the next RWQCB vote in San Luis Obispo on May 9-10.

Sincerely,

Elaine M. Gullotta
MAJ, (USA Retired)
