Subject: Comment Letter – Cambria WDR Update (Draft Updated Order No. R3-2014-0050)

Mr. Rokke,

I understand you are the person to contact regarding the upcoming vote on Cambria's Emergency Water Supply (EWS). I believe it is imperative that the new brine-disposal method be approved so that the EWS can operate. Without it, we will not have enough water to ensure the health and safety of our community.

Thank you for taking the time to read this, and for your help in resolving this very important issue.

Regards,

Robert Maston
