

To: Central Coast Regional Water Quality Control Board (RWQCB); **Jon Rokke**, Water Resource Control Engineer

From: Judith Pratt (judithapratt@gmail.com), Cambria home owner/FT resident since 2011

Date: March 10, 2019

I am writing to you, Jon, to address the Emergency Water Supply (EWS) project. I am in favor of the proposed updates of water discharge and waste recycling requirements in order to keep our SWF functioning. I endorse the proposed updated Order No. R3-2014-0050, Waste Discharge Requirements (WDRs) and Waste Recycling Requirements (WRRs) for the Cambria CSD Emergency Water Treatment Facility and Recycled Water Re-Injection Project.

This proposed updated order was worked on for months by people eager to see the continuation and success of our EWS. I feel it is responsible and serves Cambria's best interests. I urge the Board to adopt the proposed order in its entirety.
