RE: Cambria WDR Update – Draft Updated Order No. R3-2014-0050

Dear Mr. Rokke,

As seventeen year residents of Cambria, and customers of the Cambria Community Services District, we are in full support of the proposed changes to the update for the Emergency Water Supply project towards providing a permanent water supply facility that can be operated to meet Cambria's water demands and meet overall supply reliability year-round.

For the years we have lived in Cambria, we have been very concerned with an adequate, sustainable water supply for our community. We believe this water project is most appropriate for its indirect potable reuse, freshwater sustainability of San Simeon Creek Lagoon, and reducing stress on San Simeon and Santa Rosa Creeks. Our property is adjacent to the CK Ranch open space and we have continuing concerns that this community has adequate water for fire protection.

Thank you for your consideration of our support for this update. Please include this letter in the administrative record for this proceeding.

Sincerely,
Donald G. Sather and Lee Ann Oliphant
