Mr. Young

The majority of us that voted for the recall are not opposed to A, waste-water treatment plant, we are opposed to the tri-w site. We live outside the prohibition zone, but know that this location will be a disaster, personally

I feel we should all pay and hook up. The e-mails have been from some members of this community to Mr. Briggs are atrocious - asking the RWQD to fine us out of existence. Why? - well, their agenda is being threatened and is more obvious than ever! Please, help, Pat Johnson. 2555 Ocean View Pl. Los Olivos, CA 95051
