Los Osos CSD Directors  
2122 9<sup>th</sup> St  
Los Osos, CA 93402

Dear Directors

We are Los Osos residents owning our home in the Prohibition zone. My Assessor's Parcel Number is 074,081,028.

We have been assessed for the purchase of property and design of a wastewater plant at the Tri-W site, as specified in engineering reports provided to all property owners prior to the assessment vote. The wastewater plant was specified as a "gravity collection and treatment system. Disposal of treated water to the aquifer was specified as at a location at "the Broderson site."

All assessments to date have been spent on the above sites and plant designs as approved by the majority of property owners. In the event that the above sites and/or plant designs are not used fully as expected by your discontinuation of this project, the assessment is invalid and a refund is due property owners, including maximum legal interest and principal.

We have been assessed and have been paying on my tax bills. We request repayment of all assessments paid through taxes, with Interest at the maximum legal amount, removal from the assessment from our tax bill, and removal of the lien on our property.

Sincerely,

  
Richard Leslie and Nancy Leslie  
366 Mitchell Drive  
Los Osos, CA 93402
