**CEQA Filing Fee No Effect Determination Form**

**Applicant Name:**

Central Coast Regional Water  
Quality Control Board (Central Coast Water Board)

**Date Submitted:**

**Applicant Address:**

895 Aerovista Place, Suite 101  
San Luis Obispo, CA 93401-7906

**Project Name:** Amending the Water Quality Control Plan for the Central Coast Basin (Basin Plan) to Adopt Total Maximum Daily Loads (TMDLs) for Pathogens in Aptos Creek, Valencia Creek, and Trout Gulch (The Aptos Creek Watershed)

**CEQA Lead Agency:** Central Coast Water Board

**CEQA Document Type:** (ND, MND, EIR) Certified Regulatory Agency "Substitute Document"

**SCH Number and/or local agency ID number:** N/A

**Project Location:** Aptos Creek Watershed, Santa Cruz County, California

**Brief Project Description:** This Project is an amendment to the Basin Plan that adopts TMDLs and an Implementation Plan for Pathogens in the Aptos Creek Watershed. The TMDLs and Implementation Plan require actions that will result in a reduction in bacterial loading. Central Coast Water Board staff identified sources that contributed, or were highly likely to have contributed bacteria to surface waters in the Aptos Creek Watershed. The bacterial sources staff identified are: (1) storm drain discharges to municipally owned and operated storm sewer systems (MS4s) required to be covered by a National Pollutant Discharge Elimination System permit; (2) pet waste in areas that do not drain to MS4s; (3) sanitary sewer collection system spills and leaks; (4) private sewer laterals; and (4) farm animals/livestock discharges.

Central Coast Water Board staff also identified the parties responsible for each bacterial source. The Central Coast Water Board is not responsible for executing the actions in the Implementation Plan that will result in bacterial load reductions necessary to achieve the TMDLs. However, the Central Coast Water Board is the Agency requiring the responsible parties to execute the actions for compliance with the Implementation Plan and to achieve the TMDLs.

**Attachments:**

- A. California Environmental Quality Act  
"Substitute Document" Report for Basin Plan Amendment

B. Resolution No. R3-2008-0003 Amending the Water Quality Control Plan for The Central Coast Basin to Adopt Total Maximum Daily Loads for Pathogens in Aptos Creek, Valencia Creek, and Trout Gulch

C. Staff Report for Regular Meeting of March 21, 2008

**Determination:** Based on a review of the Project as proposed, the Department of Fish and Game has determined that for purposes of the assessment of CEQA filing fees [F&G Code 711.4(c)] the project has no potential effect on fish, wildlife and habitat and the project as described does not require payment of a CEQA filing fee. This determination does not in any way imply that the project is exempt from CEQA and does not determine the significance of any potential project effects evaluated pursuant to CEQA.

Please retain this original determination for your records; you are required to file a copy of this determination with the County Clerk after your project is approved and at the time of filing of the CEQA lead agency's Notice of Determination (NOD). If you do not file a copy of this determination with the County Clerk at the time of filing of the NOD, the appropriate CEQA filing fee will be due and payable.

Without a valid No Effect Determination Form or proof of fee payment, the project will not be operative, vested, or final and any local permits issued for the project will be invalid, pursuant to Fish and Game Code Section 711.4(c)(3).
