#### II. OXIDATION POND MONITORING

A grab sample of wastewater in the oxidation pond shall be collected and analyzed for Dissolved Oxygen, Total Nitrogen, Total Dissolved Solids, and Biochemical Oxygen Demand Quarterly (March, June, September and December).

#### III. GROUNDWATER MONITORING

Groundwater shall be monitored in wells MW-1, MW-2, MW-3 (see Attachment A) and any additional wells approved by the Executive Officer. Following measurement of depth to ground water, each well shall be properly purged prior to sample collection. Ground water samples shall be monitored for all the constituents listed in Table B below:

#### **TABLE B**

| <u>Constituent</u>      | <u>Units</u> | Type of<br>Sample | Minimum Frequency of Analysis |
|-------------------------|--------------|-------------------|-------------------------------|
| Depth to Groundwater    | feet         | Grab              | Semi-Annually (June and Dec.) |
| pН                      |              | 44                | "                             |
| Ammonia (as N)          | mg/l         | Grab              | 44                            |
| Nitrate Nitrogen (as N) | mg/l         | Grab              | 66                            |
| Nitrite Nitrogen (as N) | mg/l         | Grab              | <b>66</b>                     |
| Total Kjeldahl          |              |                   |                               |
| Nitrate Nitrogen (as N) | mg/l         | ٠ د د             | cc                            |

| Chloride                | 66           | 44                | 44                            |
| Sodium                  | <b>66</b>    | ٠                 | "                             |

#### IV. SITE INSPECTIONS

At least weekly, the following shall be inspected:

Wastewater Disposal and Reuse System: The Discharger shall inspect both the water recycling and wastewater treatment facilities, including all pipelines, pumps, ponds, and other features of the system. Specifically, the Discharger is to look for evidence of leaks, improperly operating equipment, odors and other indications of malfunction.

<u>Spray Disposal Area:</u> The Discharger shall inspect the condition of vegetation in the spray areas, each drainageway leaving the spray Disposal Area, operation of the sprinkler system, and the evidence of leaks or malfunctions sprinkler system hardware.

<u>Receiving Waters</u>: The Discharger shall inspect all points where drainageways originating in the Spray Disposal Area merge with Gazos Creek or with the unnamed ephemeral creek south of the Spray Disposal Area.

If any problems or concerns are observed during the Site Inspections or any other time, the Discharger shall attempt to resolve the problem promptly and contact the Regional Board Staff with in 24 hours. If water quality is significantly impacted or threatened by an observed condition, then details of the observation shall be submitted in writing within seven days along with an explanation of how the concern or problem has or will be resolved.

A logbook of all Site Inspections, including the date, time, name of the inspector, weather conditions, and details of all observed conditions shall be maintained on site. The Discharger may utilize a checklist type inspection form for documenting the results of the Site Inspections. Copies of all logbook pages for the previous calendar year shall be submitted in the quarterly report due January 20 of each year.

#### V. REPORTING

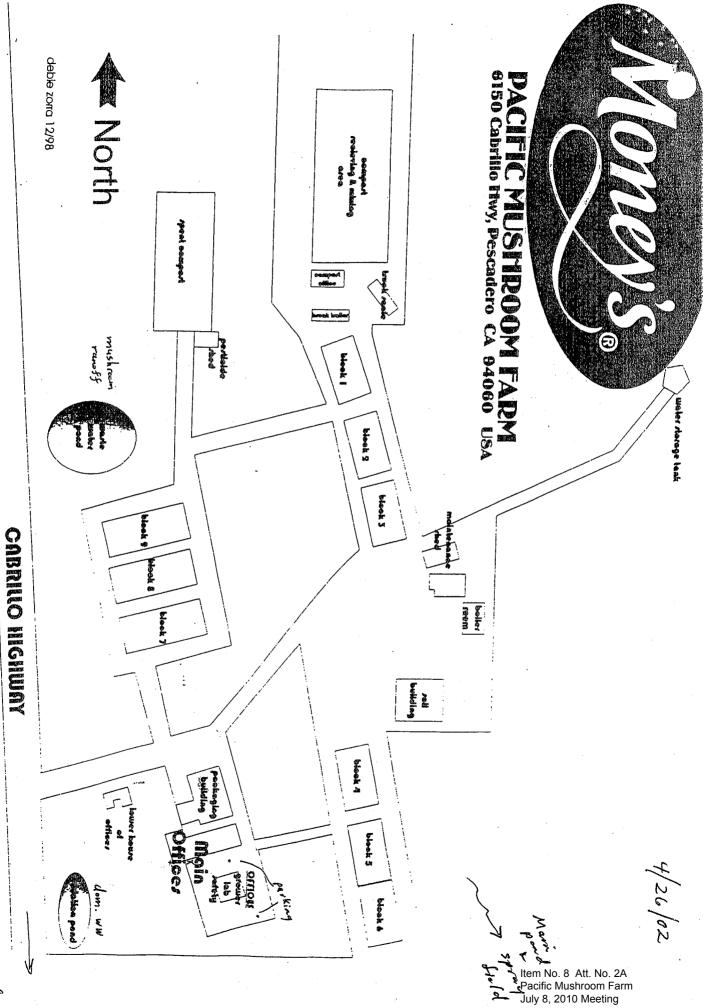

Monitoring reports shall be submitted by the 20<sup>th</sup> of January, April, July and October, and shall contain information collected during the previous quarter. In reporting monitoring data, the Discharger shall submit all data on a form prescribed by the Executive officer.

The Executive Officer may require data submitted in an appropriate electronic format.

Dear Mr. Aguirre:

RENEWAL OF WASTE DISCHARGE REQUIREMENTS ORDER NO. 01-101, MONEY'S FOOD US, INC., SAN MATEO COUNTY

Dear Mr. Aguirre:

Enclosed is a copy of Waste Discharge Requirements Order No. 01-101 for Money's Food US, Inc., San Mateo County. This Order was adopted by the Regional Board at its meeting on July 13, 2001.

If you have any questions or comments, please contact William Arkfeld at (805) 542-4627.

Sincerely,

Roger W. Briggs
Executive Officer
