Ms. Susan Whalen
Greka Oil & Gas, Inc.
PO Box 5489
Santa Maria, CA 93456

Dear Ms. Whalen:

SITE CLEANUP PROGRAM: SOUTH CAT CANYON AREA - APPROVAL OF APPLICATION FOR REUSE OF NON-HAZARDOUS CRUDE OIL IMPACTED SOIL

The Central Coast Regional Water Quality Control Board (Water Board) has reviewed (1) the application of Greka Oil & Gas, Inc. ("Greka") submitted on September 5, 2006, for the reuse of non-hazardous, crude oil impacted soil at the South Cat Canyon Area; and (2) the testing data for existing soil piles at the South Cat Canyon Area submitted on September 17, 2006, as supplemented on February 27, 2007.

I.

In accordance with Water Board Order No. R3-2005-005, the Water Board approves Greka's reuse application with the following conditions:

1. The reuse material must be applied, maintained, and inspected in compliance with the waiver conditions described in Attachment A of Order No. R3-2005-005, including all annual reporting requirements.
2. This waiver enrollment is conditional and may be terminated by the Water Board for cause as described in Water Board Order No. R3-2005-005.

The reuse material may be used to maintain roads, construct and maintain containment berms, and/or construct and maintain approved waste pile management facilities. See the Western States Petroleum Association manual (attached) for recommended application of reuse material.

II.

In accordance with Water Board Order No. R3-2005-005, the Water Board also approves Greka's reuse of the following existing soil piles identified in Greka's application:

ID No.	Soil Pile Name	Est. Vol. (cy)	GPS Location	Soil Pile Reuse Status
19	Blockman 16 pile	500	34°49'49.33"N 120°19'29.84W	Approved
20	Blockman 29 pile	500	34°49'53.20"N 120°19'25.67"W	Conditionally approved, subject to confirmation retesting ¹
21	Bell Ponds (2) piles	300	34°49'40.97"N 120°19'28.51"W	Approved
22	Bell 120 pile	10	34°48'41.73"N 120°18'56.56"W	Approved
23	Dominion 35X-23 pile	200	34°50'28.61"N 120°19'24.51"W	Approved
24	Dominion Tank Battery pile	200	34°50'17.57"N 120°19'27.51"W	Approved
25	Dominion 38-23 pile	200	35°50'12.96"N 120°19'29.90"W	Approved
26	Bell 145 (147) pile	200	34°48'27.11"N 120°19'6.70"W	Approved
27	Fullerton Biopile	40,000	34°48'51.21"N 120°17'32.87"W	In-place closure approved ²
28	Fullerton Tank Battery pile	40	34°48'53.01"N 120°17'22.20"W	Approved
36	Davis Tank Battery Pile	1,500	34°43'36.82"N 120°08'52.81"W	Approved
37	Chamberlin KD TB Pile	300	34°43'52.54"W 120°09'11.68"W	Approved

The Water Board's approval of the reuse of the soil piles identified in the above table is subject to the following conditions:

1. This approval is limited to only those piles listed above as identified by location and volume.

¹ This soil pile is conditionally approved for reuse, subject to confirmation retesting as set forth in the settlement agreement dated May 3, 2010.

² This soil pile is approved for in-place closure.

Ms. Susan Whalen

May 3, 2010

2. The soil piles may be reused only in compliance with the waiver conditions described in Attachment A of Order No. R3-2005-005, including all annual reporting requirements.

No petroleum or other waste-impacted soil(s) may be added to the soil piles or transferred from one pile to another prior to their reuse; the addition of any new material to any soil pile voids the approval of that soil pile for reuse, and Greka must dispose of any such pile at an appropriately licensed disposal facility.

If you have any questions, please contact Richard Chandler at (805) 542-4627 (email: rchandler@waterboards.ca.gov) or Sheila Soderberg at (805) 549-3592.

Sincerely,

Roger W. Briggs
Executive Officer
