

City of Atascadero's Local Agency Management Program for Onsite Wastewater Treatment Systems

December 7, 2018

Cecile DeMartini
Water Resources Control Engineer

Terms

- Local Agency Management Program = **LAMP**
- Onsite Wastewater Treatment System = **OWTS or Septic system**
- Local Agency = **City or County Agency**
- Waste Discharge Requirements = **WDRs or permits**

Legal Context

- Prohibits discharge of waste
 - Waste Discharge Requirements (WDRs) or
 - Waiver of WDRs
- OWTS Policy 2013

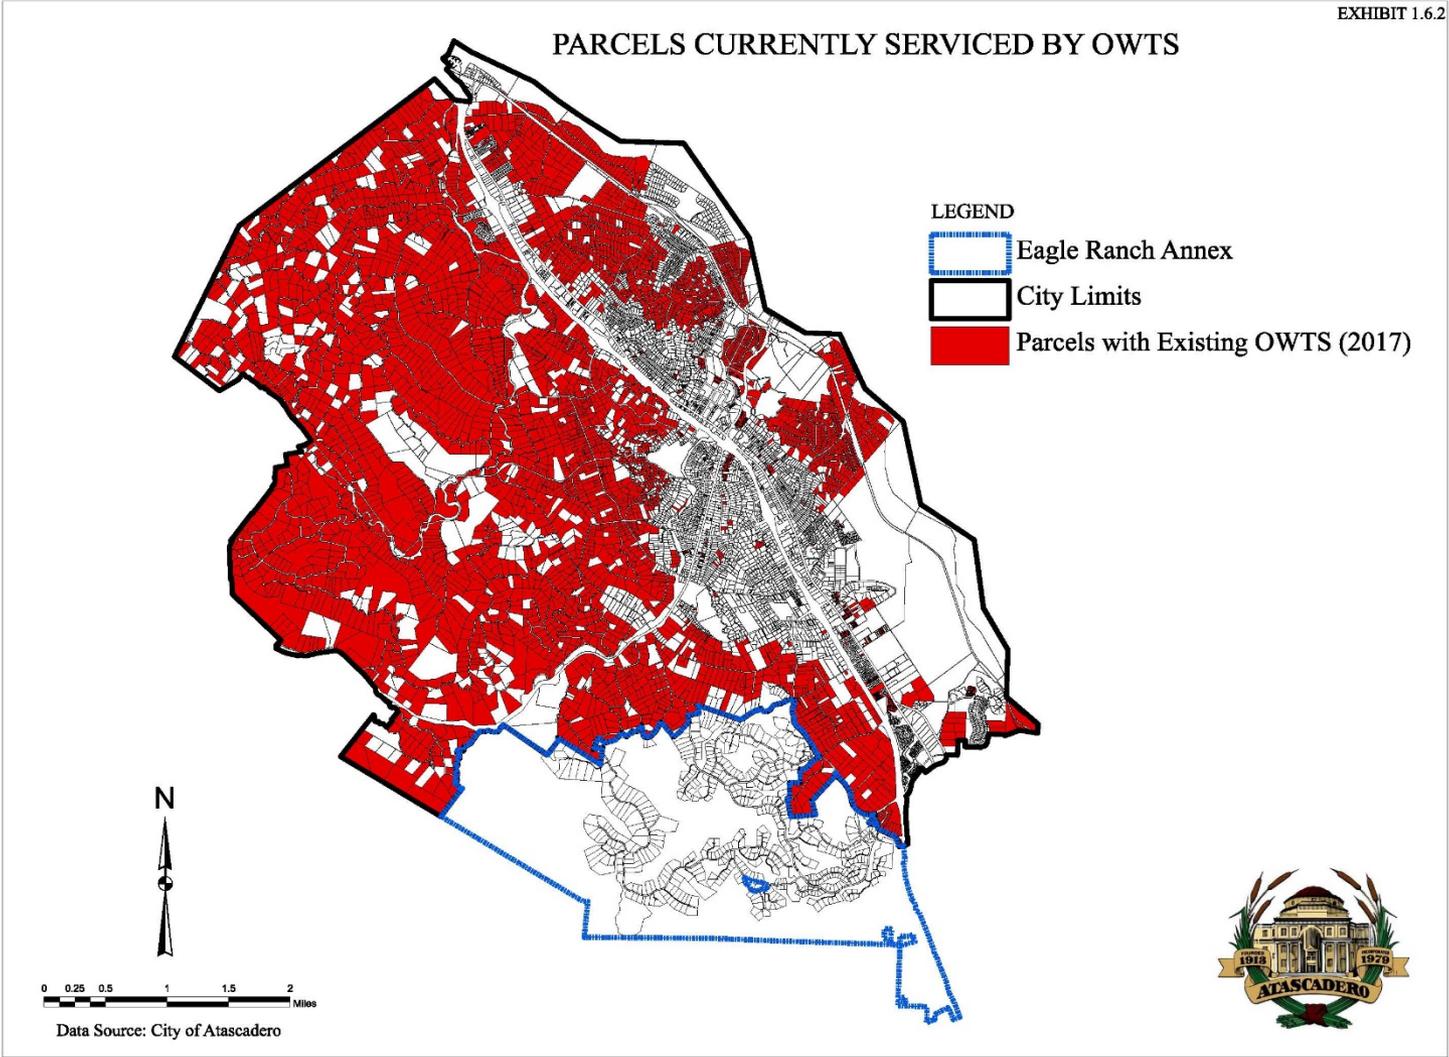

OWTS Policy and LAMP Review & Approval

- LAMPs allow Local Agencies to regulate OWTS.
- Must be approved by Regional Water Board.
- Atascadero LAMP process took a year.

PARCELS CURRENTLY SERVICED BY OWTS

LAMP Key Components

- Protection of Water Resources
- OWTS Density
- Advanced Groundwater and Surface Water Protection Plans

Protection of Water Resources

- Compliance with Prohibitions and Setbacks
- Technical Adequacy to Protect Water Quality
- Atascadero City Council Commitment

OWTS Density

- Minimum parcel size per septic system in an area is based on 30-year avg. rainfall data.
- Parcel size is consistent with OWTS Policy standards.

Advanced Groundwater and Surface Water Protection Plans

- Identify impaired groundwater basins and surface water bodies.
- Inspections
- Monitoring
- Supplemental Treatment

Recommendation

Adopt Resolution No. R3-2018-0007 as proposed.
