**FINDINGS**

The Central Coast Regional Water Quality Control Board (Central Coast Water Board) finds that:

1. Waste discharge requirements Order No. 97-31 (adopted on September 5, 1997) and the associated monitoring and reporting program (MRP) Order No. 99-48, prescribes requirements for the discharge of wastewater originating from:
  - a. The Rancho San Marcos Golf Course clubhouse; administrative office, water treatment facility, and residential cottages;
  - b. A maintenance building; and
  - c. Two remote bathrooms.
2. The golf course is located at 4600 Highway, Santa Barbara in Santa Barbara County. The discharge of wastewater is more appropriately regulated under the Santa Barbara County Local Agency Management Program (LAMP). The discharge meets the requirements of onsite wastewater treatment systems that are covered by the Santa Barbara County LAMP. Rancho San Marcos Golf Course provided staff with correspondence from Santa Barbara County confirming that the County has been and will continue to oversee the onsite wastewater treatment system.

**IT IS HEREBY ORDERED** that Order No. 97-31 and MRP No. 99-48 are terminated on the date of this Order.

I, Matthew T. Keeling, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an order adopted by the California Regional Water Quality Control Board, Central Coast Region on September 23-25, 2020.
