

STATE OF CALIFORNIA
REGIONAL WATER QUALITY CONTROL BOARD
CENTRAL COAST REGION

STAFF REPORT FOR REGULAR MEETING OF December 12-13, 2024
Prepared on December 10, 2024

ITEM NUMBER: 8

SUBJECT: Annual Agricultural Order Implementation Update

STAFF CONTACTS: Elaine Sahl, 805/542-4645,
Elaine.Sahl@waterboards.ca.gov,
Paula Richter, 805/549-3865,
Paula.Richter@waterboards.ca.gov, and
James Bishop, 805/542-4628,
James.Bishop@waterboards.ca.gov

This supplemental sheet is to correct errors included in the Staff Report on pages 4-5, in the section titled *Third-Party Program Engagement and Coordination Efforts, Groundwater Monitoring and Reporting – GeoTracker Batch Uploads*. The following shows all corrections using **red** underline-strikeout:

Groundwater Monitoring and Reporting

GeoTracker Batch Uploads – In March of 2024, GeoTracker finalized a tool for well sampling data batch uploads (combining several laboratory reports into a single upload file instead of individual uploads for each ranch) and the third-party program successfully uploaded 2023 well sampling data (~~3,223~~ 3,211 ranch reports with sampling results from ~~4,508~~ 4,461 domestic and primary irrigation wells) and 2024 well sampling data (~~2,182~~ 3,198 ranch reports with sampling results from ~~4,336~~ 4,360 domestic and primary irrigation wells). This GeoTracker functionality allows the third party program to implement additional data quality assurance processes and saves growers the cost of lab report uploads (approximately \$25/report).
