Definitions:

Underrepresented Communities – Underrepresented Communities include, but are not limited to, Disadvantaged Communities (DACs), Severely Disadvantaged Communities (SDACs), Economically Distressed Areas (EDAs), Tribes, Environmentally Disadvantaged Communities (EnvDACs), and members of Fringe Communities.

- Disadvantaged Community (DACs): A community with an annual median household income that is less than 80 percent of the statewide annual median household income (Public Resources Code section 80002(e));
- Severely Disadvantaged Community (SDACs): A community with a median household income of less than 60 percent of the statewide average (Public Resources Code section 80002(n));
- Economically Distressed Area (EDAs): A municipality with a population of 20,000 persons or less, a rural county, or a reasonably isolated and divisible segment of a larger municipality where the segment of the population is 20,000 persons or less, with an annual median household income that is less than 85 percent of the Statewide median household income, and with one or more of the following conditions as determined by the department: (1) financial hardship, (2) unemployment rate at least 2 percent higher than the statewide average, or (3) low population density (Water Code section 79702(k));
- Tribes: Federally recognized Indian Tribes and California State Indian Tribes listed on the Native American Heritage Commission’s California Tribal Consultation List;
- EnvDACs (EnvDACs): CalEPA designates the top 25 percent scoring census tracts as DACs. Census tracts that score the highest 5 percent of Pollution Burden scores, but do not have an overall CalEnviroScreen score because of unreliable socioeconomic or health data, are also designated as DACs (refer to the CalEnviroScreen 3.0 Mapping Tool or Results Excel Sheet); and
- Fringe Community: Communities that do not meet the established DAC, SDAC, and EDA definitions, but can show that they score in the top 25 percent of either the Pollution Burden or Population Characteristics score using the CalEnviroScreen 3.0.
