

## 2019 Central Coastal Basin Plan — Incorporation of 3 Amendments

**June 14, 2019**

The June 2019 edition of the Water Quality Control Plan for the Central Coastal Basin (Basin Plan) includes revised language reflecting all fully approved Basin Plan Amendments adopted since the release of the previous (September 2017) edition. The Basin Plan *Table of Contents* and *page numbers* were revised accordingly. Table 1 below lists all amendments now incorporated into the 2019 Basin Plan in chronological order.

Basin Plan amendments approved by the Central Coast Regional Water Quality Control Board (RB3) do not take effect until approved by the State Water Resources Control Board (SB) and the California Office of Administrative Law (OAL). If an amendment involves adopting or revising a water quality standard for surface waters, it must also be approved by the U.S. Environmental Protection Agency (USEPA) (40 CFR Section 131.21). All changes to the Basin Plan included in this update were previously approved by the required governmental agencies. The 2019 Basin Plan update did not include any other changes beyond incorporating these amendments.

Questions concerning the Basin Plan edition may be directed to Steven G. Saiz at [steve.saiz@waterboards.ca.gov](mailto:steve.saiz@waterboards.ca.gov) or (805) 549-3879.
