Public Notice: 6/26/2025 – 7/18/2025

Project Description:

The purpose of the proposed Project is to restore and improve the functionality of the stormwater conveyance system that directs runoff past wastewater treatment ponds.

The proposed project activities include:

- Construction of a new open trapezoidal channel; and
- Construction of a rock dissipator to control flows at the concrete apron at the end of the facility.

No mitigation is proposed.
