¹ Central Coast Water Board staff has confirmed that these laboratories are certified by the California Division of Drinking Water (DDW) to conduct the required groundwater analyses and has complied with the criteria outlined in *Procedures for Laboratories to Obtain GeoTracker Upload Authorization from GeoTracker Helpdesk*, updated September 19, 2012. Growers should choose their laboratory and confirm that the laboratory has the required capabilities to ensure timely compliance with the Agricultural Order. Please note that some laboratories only offer groundwater well sampling services and/or analytical data upload services, and may not conduct the laboratory analysis, and may partner with a State certified laboratory to conduct the analysis. The monitoring results and well location data must be submitted in Electronic Deliverable Format (EDF) to the State Water Resources Control Board (SWRCB) GeoTracker data management system.
