

## **Additional Time for Growers to Sample Wells and Submit Well Sampling Results**

### **Central Coast Regional Water Board – Irrigated Lands Program**

Si es miembro de Preservation, Inc., comuníquese con la línea de soporte de Preservation, Inc. en [support@ccwqp.org](mailto:support@ccwqp.org) o (831) 240-9533.

Si no es miembro de Preservation, Inc., comuníquese con el personal del Programa de tierras irrigadas en [AqNOI@waterboards.ca.gov](mailto:AqNOI@waterboards.ca.gov) o (805) 549-3148.

如果您是 Preservation, Inc. 的成员，请通过 [support@ccwqp.org](mailto:support@ccwqp.org) 或 (831) 240-9533 联系 Preservation, Inc. 支持热线。

如果您不是 Preservation, Inc. 的成员，请通过 [AqNOI@waterboards.ca.gov](mailto:AqNOI@waterboards.ca.gov) 或 (805) 549-3148 联系灌溉土地计划工作人员。

Growers enrolled in the Agricultural Order R3-2021-0040 are required to conduct annual water sampling for all on-farm domestic wells and the primary irrigation well between March 1 – May 31 and report sampling results to GeoTracker by July 31 (hereafter referred to as the '2023 well sampling requirements'). Due to ongoing significant rain and flooding in parts of the Central Coast Region, this email provides all growers who are required to complete the 2023 well sampling requirements with an additional 30 days to sample (sample between March 1 – June 30, 2023) and an additional 31 days to report well sampling results to GeoTracker (report by August 31, 2023) without receiving a violation notice for a late submittal. This only applies to the 2023 well sampling requirements and not future years or other reporting requirements.

Please use this additional time to coordinate for **well sampling no later than June 30, 2023**, and to **report well sampling results to GeoTracker no later than August 31, 2023**. If you have any questions regarding this issue, please email Irrigated Lands Program staff at [AqNOI@waterboards.ca.gov](mailto:AqNOI@waterboards.ca.gov).

For those growers who have already completed their 2023 well sampling requirements, thank you for your effort and timely sampling and reporting.

### **INFORMATION FOR PRESERVATION, INC. MEMBERS**

If you are a member of Preservation, Inc. please refer to [Preservation, Inc.'s well sampling website](#) or contact their support line at [support@ccwqp.org](mailto:support@ccwqp.org) or (831) 240-9533 for additional information or guidance on well sampling.
