

# Irrigated Lands Program Agricultural Order TNA/INMP Reporting Workshops February 2024

## QUESTIONS ABOUT YOUR TNA/INMP REPORTS? ILP & Preservation Inc., staff are here to help!

Please join the Irrigated Lands Program at one of the grower workshops noted below. The Central Coast Water Board, Region 3 will host in-person workshops to assist growers on their individual questions related to Annual Compliance Form (ACF), Total Nitrogen Applied (TNA) and Irrigation and Nutrient Management (INMP) reporting. If you have already reported this information, you do not need to attend these workshops and can call us with any follow-up questions. Irrigated Lands staff will give a brief orientation presentation providing information on upcoming reporting deadlines at the beginning of each workshop (times listed below) followed by a short presentation by Preservation, Inc., the third-party program, on TNA forms used by their members. Growers should come prepared with their Operation AW number(s), Ranch AGL number(s), specific questions related to TNA/INMP reporting, and if applicable, records that are required for reporting. Growers are encouraged to contact the Central Coast Water Board and/or Preservation, Inc. (if they are members) with questions prior to the workshops. If you have additional questions, please contact Irrigated Lands Program staff at [AgNOI@waterboards.ca.gov](mailto:AgNOI@waterboards.ca.gov). In-person translation services will be provided in Spanish (all four workshops) and Chinese (February 29, 2024, workshop).
