### **ORDER AMENDING CLEAN WATER ACT SECTION 401 WATER QUALITY CERTIFICATION AND ORDER FOR THE MARSH CREEK ROAD BRIDGE REPLACEMENT (BRIDGE 28C-0141) PROJECT, CONTRA COSTA COUNTY (WDID#5B07CR00198A1)**

This Order responds to the 21 August 2018 request for a Certification Deviation for the Marsh Creek Road Bridge Replacement (Bridge 28C-0141) Project (Project) Section 401 Water Quality Certification (WDID#5B07CR000198A1). The original Water Quality Certification (Certification) was issued on 30 March 2018. The requested deviation was approved on 21 August 2018, and no subsequent requests were received. Contra Costa Public Works Department submitted a request for a Notice of Project Complete Letter on 6 March 2019. A Notice of Project Complete Letter was issued on 7 March 2019. The original Certification is therefore amended as described below. Please attach this document to the original Certification.

#### **AMENDMENT:**

Contra Costa Public Works Department requested a certification deviation to extend the area of bank stabilization and increase the volume of material placed within the Project footprint to accommodate unanticipated field conditions. Additional bank stabilization material consisted of vegetated coir blocks placed on both banks, above the ordinary high-water mark, along 35 linear feet of Marsh Creek. The extended placement area did not increase the total authorized impacts to stream channel (waters of the United States).

#### **APPLICATION FEE RECEIVED:**

No fee was required for this amendment. Total fees of \$2,017.00 for the original Certification were received on 27 February 2018. The fee amount was determined as required by California Code of Regulations, title 23, sections 3383(b)(3) and 2200(a)(3), as was calculated as category A - Fill & Excavation Discharges (fee code 84) with the dredge and fill fee calculator.

**WATER QUALITY CERTIFICATION:**

I hereby issue an Order amending the existing Clean Water Act, Section 401 Technically Conditioned Water Quality Certification for the Marsh Creek Road Bridge Replacement (Bridge 28C-0141) Project (WDID#5B07CR00198A1). All other conditions and provisions of the original Water Quality Certification and any previously approved amendments remain in full force and effect, except as modified based on the conditions of this Order. Failure to comply with the terms and conditions of the original Water Quality Certification, previously approved amendments, or of this Order may result in suspension or revocation of the Water Quality Certification.
