On 8 October 2012, the Executive Officer of the Central Valley Regional Water Quality Control Board issued a Notice of Applicability granting coverage under the State Water Resources Control Board's *Statewide General Waste Discharge Requirements for Discharges to Land with a Low Threat to Water Quality* (Order 2003-003-DWQ) to Pacific Gas and Electric Company (PG&E). The Notice of Applicability was for temporary discharges of hydrostatic pipeline test water associated with Pipeline Segment L-119A in Sacramento County.

Your 9 January 2013 letter and Notice of Termination state that the project has been completed, there was no discharge to land, and you wish to terminate coverage under the General WDRs. Based on that information, coverage under Order 2003-003-DWQ is hereby rescinded.
