**ORDER AMENDING NOTICE OF APPLICABILITY  
GENERAL WASTE DISCHARGE REQUIREMENTS  
FOR DREDGING OPERATIONS  
SACRAMENTO-SAN JOAQUIN DELTA  
ORDER NO. R5-2009-0085-019A**

**CITY OF SACRAMENTO  
SACRAMENTO MARINA ANNUAL MAINTENANCE DREDGING 2017-2022 PROJECT  
SACRAMENTO COUNTY**

This Order amends the Notice of Applicability under General Waste Discharge Requirements for Dredging Operations, Sacramento-San Joaquin Delta, Order No. R5-2009-0085 issued to the City of Sacramento for the Sacramento Marina Annual Maintenance Dredging 2017-2022 Project. The original Notice of Applicability (NOA) was issued on 28 July 2017. The amendment is hereby approved. The original NOA is therefore amended as described below. Please attach this document to the original NOA.

**AMENDMENT:**

The original NOA contains a typographical error in the number assigned to the NOA. In addition, a condition is added to require annual reporting of the amount of material dredged for each fiscal year for the purpose of annual billing. The NOA is amended as shown in underline/strikeout format in Attachment 1.

I hereby issue an Order amending the existing Notice of Applicability, Waste Discharge Requirements for Dredging Operations, Sacramento-San Joaquin Delta, Order No. R5-2009-0085. All other conditions and provisions of the original Notice of Applicability and any previously approved amendments remain in full force and effect, except as modified based on the conditions of this Order. Failure to comply with the terms and conditions of the original Notice of Applicability, previously approved amendments, or of this Order may result in suspension or revocation of the Notice of Applicability.

**NOTICE OF APPLICABILITY; GENERAL WASTE DISCHARGE REQUIREMENTS FOR MAINTENANCE DREDGING OPERATIONS, SACRAMENTO-SAN JOAQUIN DELTA ORDER NO. R5-2009-0085-002019, SACRAMENTO MARINA ANNUAL MAINTENANCE DREDGING 2017-2022 PROJECT, SACRAMENTO COUNTY**

On 21 April 2017 the City of Sacramento (Discharger) filed a 401 Water Quality Certification application which serves as a Report of Waste Discharge (RWD) for requesting coverage under *General Waste Discharge Requirements for Maintenance Dredging Operations, Sacramento-San Joaquin Delta, Order No. R5-2009-0085* (General Order) for the Sacramento Marina Annual Maintenance Dredging 2017-2022 Project (Project). After review of the RWD and the supplemental material submitted by the Discharger, the Central Valley Regional Water Quality Control Board (Central Valley Water Board) has determined that the placement of dredge materials associated with this Project qualifies for enrollment under this General Order.

The Discharger is hereby assigned R5-2009-0085-002019. Please include this number on all correspondence related to this discharge.

The in-water work associated with this Project is covered under Clean Water Act, Section 401 Water Quality Certification (WDID#5A34CR00703) issued to the City of Sacramento for the Sacramento Marina Annual Maintenance Dredging 2017-2022 Project.

A copy of the General Order is enclosed. You can also find the General Order on the Central Valley Water Board's website at:  
[http://www.waterboards.ca.gov/centralvalley/board\\_decisions/adopted\\_orders/general\\_orders/r5-2009-0085.pdf](http://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/general_orders/r5-2009-0085.pdf)

The Project must proceed in accordance with the conditions specified in this Notice of Applicability, General Order, and RWD application package. Coverage under the General Order is no longer valid if the Project (as described in this Notice of Applicability and the RWD application package) is modified.

**PROJECT DESCRIPTION:**

The maintenance dredging will remove a total of 12,500 cubic yards of accumulated sediment from the entrance channel of the Sacramento Marina and the adjacent Miller Park boat ramp area to restore operational depth at the facility over the next five (5) years. The dredged sediment will be removed by clamshell and placed on the impervious asphalt paved overflow parking area located at the entrance of the Sacramento Marina for dewatering.

11020 Sun Center Drive #200, Rancho Cordova, CA 95670 | [www.waterboards.ca.gov/centralvalley](http://www.waterboards.ca.gov/centralvalley)

Runoff from the placement area will be contained by appropriate methods including wattle or berms so that there is no direct hydraulic connection to land. The placement area will not discharge effluent water to surface waters directly or via a municipal storm sewer system. Erosion control fencing will be installed along the land between the boat ramp and the channel to prevent soil from entering the water. Dewatering is expected to take 30-45 days. After drying, the material may be used for beneficial reuse or disposed of at an appropriate landfill.

**ADDITIONAL CONDITIONS:**

1. This NOA expires on 27 July 2022.
2. The Discharger shall report the quantity of material dredged from 1 July to 30 June for each year by 1 September.

**APPROXIMATE TIMEFRAME OF PROJECT IMPLEMENTATION:**

1 July to 31 October

**PROJECT LOCATION:**

Latitude: 38.5606°N and Longitude: 121.5167°W

**NOTIFICATIONS AND REPORTS:**

As required by the General Order, the Discharger shall submit self-monitoring reports in accordance with the requirements of the Monitoring and Reporting Program.

All notifications, submissions, materials, data, correspondence, and reports for this Project must be in a searchable Portable Document Format (PDF). Documents less than 50 MB must be emailed to: [centralvalleysacramento@waterboards.ca.gov](mailto:centralvalleysacramento@waterboards.ca.gov). In the subject line of the email, include the Central Valley Water Board staff contact and Project Name. Documents that are 50 MB or larger must be transferred to a disk and mailed to the Central Valley Water Board staff contact.

Any person aggrieved by this action may petition the State Water Resources Control Board to review the action. The State Water Resources Control Board must receive the petition 30 days after the date this Order is issued. Laws and regulations applicable to filing petitions:
