On 8 June 2021, the Executive Officer of the Central Valley Regional Water Quality Control Board (Central Valley Water Board) issued a Notice of Applicability (NOA) under General Order No. R5-2015-0012, *Waste Discharge Requirements, General Order for In-Situ Remediation and Discharge of Treated Groundwater to Land* (the General Order). In the NOA, this project was assigned site-specific Order No. R5-2015-0012-069.

Following review of groundwater quality data and discussion of cleanup criteria, Mr. Mike Maffia of Preserve West Capitol requested termination of coverage under the General Order for this project in an email dated 30 October 2025. Central Valley Water Board staff concur with the request to terminate coverage. Therefore, Order No. R5-2015-0012-069 is hereby terminated as of the date of this letter. Invoicing for General Order coverage will be modified accordingly.
