Based on information submitted by you in letters dated 12 July 2011 and 27 February 2012 and inspections of the Jeffcoat East and Jeffcoat West Facilities conducted by the Central Valley Regional Water Quality Control Board on 14 March 2012, activities requiring the discharge of flow-through aquaculture water to surface waters ceased prior to July 2011. Therefore, your coverage (Enrollee numbers R5-2010-0018-006 and R5-2010-0018-007) under the General Order for Waste Discharge Requirements for Cold Water Concentrated Aquatic Animal Production Facility Discharges to Surface Waters (Order R5-2010-0018) is hereby terminated. Should site conditions change such that coverage under the General Waste Discharge Requirements Order is necessary, you must submit a new Notice of Intent and appropriate fee.

If you have any questions regarding these comments or the enclosed inspection report, please contact Jacqueline Matthews of my staff at (530) 224-3249.
