CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
CENTRAL VALLEY REGION  

In the matter of:  

Phyllis Ormonde (owner),  
Jose and Fatima Martins  
(operator) dba  
J&F Martins Dairy #2  

Administrative Civil Liability Complaint No. R5-2011-0560  

Order No. R5-2012-0508  
Settlement Agreement and Stipulation for Entry of Order; Order  

Section I: INTRODUCTION  

This Settlement Agreement and Stipulation for Entry of Administrative Civil Liability Order ("Stipulated Order") is entered into by and between the Executive Officer of the Regional Water Quality Control Board, Central Valley Region ("Central Valley Water Board"), on behalf of the Central Valley Water Board Prosecution Staff ("Prosecution Staff"), and Phyllis Ormonde (Collectively the "Parties") and is presented to the Central Valley Water Board, or its delegatee, for adoption as an order by settlement, pursuant to Government Code section 11415.60.  

Section II: RECITALS  

1. Phyllis Ormonde ("owner") owns the dairy property located in Hanford, California known as the J&F Martins Dairy #2 (Dairy). As of July 31, 2008, Jose and Fatima Martins ("former operator") no longer operate a dairy on the property. A new operator, Jose and Lucy Toste, entered into a lease with the owner on 1 August 2008, however, as of June 2009 the property has been vacant and dairy operations have ceased. On 3 May 2007, the Central Valley Water Board issued the Waste Discharge Requirements General Order for Existing Milk Cow Dairies, Order R5-2007-0035 (hereinafter General Order) and the General Order's corresponding Monitoring and Reporting Program. The General Order became effective on 9 May 2007. The Dairy is regulated by the General Order and the General Order names both the owner and operator as "the Discharger." Because both owner and operator are named Dischargers, each is responsible for complying with the terms of the General Order and administrative civil liability may be imposed against both the owner and operator, if they are distinct parties, equally for noncompliance with the General Order.  

2. On 5 May 2011, the Executive Officer of the Central Valley Water Board issued Administrative Civil Liability Complaint No. R5-201 1-0560 ("Complaint") to both owner and former operator (Attachment A). The Complaint recommends imposing an
administrative civil liability totaling $1,140 for the alleged violations of the General Order.

3. On 8 June 2011, the Executive Officer of the Central Valley Water Board amended the Complaint to remove the former operator, Jose and Fatima Martins, as named parties in the Complaint as they did not operate the dairy at the time the alleged violations occurred.

4. The Prosecution Staff and owner (hereinafter "Parties") engaged in settlement negotiations and agree to settle the violations cited in the Complaint without administrative or civil litigation and by presenting this Stipulated Order to the Central Valley Water Board, or its delegee, for adoption as an order by settlement pursuant to Government Code section 11415.60. The settlement between the Parties by Stipulated Order also constitutes settlement of the alleged violations in the Complaint as to the subsequent operator, Jose and Lucy Toste, and the Prosecution Staff. The Prosecution Staff believes that the resolution of the alleged violations is fair and reasonable and fulfils its enforcement objectives, that no further action is warranted concerning the violation alleged in the Complaint except as provided in this Stipulated Order and that this Stipulated Order is in the best interest of the public.

5. To resolve the violations alleged in the Complaint by consent and without further administrative proceedings, the Parties have agreed to the imposition of $5,000 in liability against the owner. The reduction in liability is based on the owner's submission of the missing 2009 Annual Report and the Waste Management Plan. This represents an adjusted liability amount consisting of a $2,000 reduction for each missing report that is submitted as described in the Complaint. The liability amount was adjusted further based on the Discharger's ongoing effort to come into compliance. The economic benefit originally calculated in the Complaint was adjusted based on information gained during settlement negotiations regarding the actual amount of cost savings derived from the alleged violations. The liability amount of $5,000 more than adequately recoups the economic benefit derived from the violations, plus 10%, which is the lowest amount permissible pursuant to the State Water Resources Control Board's Water Quality Enforcement Policy.

6. The Parties agree to a modified time schedule for implementing the modifications proposed in the Waste Management Plan. The General Order requires certification of completion of proposed modifications or improvements identified in the Waste Management Plan related to pond storage capacity, flood protection, and animal confinement areas by 1 July 2011 if the facility does not meet the minimum design requirements. The Waste Management Plan, submitted on 19 August 2011, identified proposed modifications for pond storage capacity. Specifically, the facility plans to install a pipeline to connect the plate cooler water, compressor cooling water, and vacuum pump cooling water to the above ground storage tank prior to any operation of the milk barn. In addition, the dairy plans to install a valve on the stage 1 plate cooler. Because dairy operations have ceased and cows are not currently on the property, the Parties agree that the proposed pond storage capacity modifications would not have to
be implemented until cows are brought back to the facility. If cows are expected to be brought back to the facility during the rainy season (the period of 1 December through 1 April), the proposed pond storage capacity modification must be completed prior to bringing cows back to the facility. If cows are brought back to the facility outside of the rainy season period (prior to 1 December and after 1 April), the proposed pond storage capacity modification must be completed prior to the next rainy season. The Central Valley Water Board acknowledges that all annual monitoring reports required to date by the General Order have been satisfactorily submitted.

7. The proposed pond storage capacity modification in the Waste Management Plan is partially based on 385 cows yielding 13,827 gallons of combined process wastewater daily from the milk barn and 524 gallons of animal waste output per day. If fewer than 385 cows are expected to be brought back to the facility, the proposed pond storage capacity modification would not need to be implemented as sufficient storage capacity would exist in the pond’s current design to store the combined process wastewater and stormwater runoff. However, if the number of cows is equal to or exceeds 385 cows, then the proposed pond storage capacity modifications must be implemented according to the conditions set forth in Item No. 6 above.

Section III: STIPULATIONS

The Parties stipulate to the following:

8. Administrative Civil Liability: The owner hereby agrees to the imposition of an administrative civil liability totaling $5,000. Within thirty (30) days of the effective date of this Stipulated Order, the owner agrees to remit, by check, FIVE THOUSAND DOLLARS, payable to the State Water Pollution Cleanup and Abatement Account, and shall indicate on the check the number of this Stipulated Order. The Discharger shall send the original signed check to Clay Rodgers, Central Valley Water Board 1685 “E” Street, Fresno, California 93706-2007, and shall send a copy to Mayumi Okamoto, Office of Enforcement, State Water Resources Control Board, 1001 “I” Street, 16th Floor Sacramento, California 95814.

9. Compliance with Applicable Laws: The owner understands that payment of administrative civil liability in accordance with the terms of this Stipulated Order and or compliance with the terms of this Stipulated Order is not a substitute for compliance with applicable laws, and that continuing violations of the type alleged in the Complaint may subject it to further enforcement, including additional administrative civil liability.

10. Party Contacts for Communications related to Stipulated Order:

For the Central Valley Water Board:

Clay Rodgers
Regional Water Quality Control Board
Central Valley Region
1685 “E” Street
Fresno, CA 93706-2007

Settlement Agreement and Stipulation for
Entry of Order; Order
J&F Martine Dairy #2
For the Owner:

Loren J. Harlow
Stoel Rives LLP
500 Capitol Mall Suite 1600
Sacramento, California 95814
Ljharlow@stoel.com

11. **Attorney's Fees and Costs:** Except as otherwise provided herein, each Party shall bear all attorneys' fees and costs arising from the Party's own counsel in connection with the matters set forth herein.

12. **Matters Addressed by Stipulation:** Upon the Central Valley Water Board's adoption, this Stipulated Order represents a final and binding resolution and settlement of the violations alleged in the Complaint, and all claims, violations or causes of action that could have been asserted against the owner or operator as of the effective date of this Stipulated Order based on the specific facts alleged in the Complaint or this Stipulated Order ("Covered Matters"). The provisions of this Paragraph are expressly conditioned on the full payment of the administrative civil liability, in accordance with Paragraph 7.

13. **Public Notice:** The owner understands that this Stipulated Order will be noticed for a 30-day public review and comment period prior to consideration by the Central Valley Water Board, or its delegee. If significant new information is received that reasonably affects the propriety of presenting this Stipulated Order to the Central Valley Water Board, or its delegee, for adoption, the Executive Officer may unilaterally declare this Stipulated Order void and decide not to present it to the Central Valley Water Board, or its delegee. The owner agrees that they may not rescind or otherwise withdraw their approval of this proposed Stipulated Order.

14. **Addressing Objections Raised During Public Comment Period:** The Parties agree that the procedure contemplated for the Central Valley Water Board's adoption of the settlement by the Parties and review by the public, as reflected in this Stipulated Order, will be adequate. In the event procedural objections are raised prior to the Stipulated Order becoming effective, the Parties agree to meet and confer concerning any such objections, and may agree to revise or adjust the procedure as necessary or advisable under the circumstances.

15. **No Waiver of Right to Enforce:** The failure of the Prosecution Staff or Central Valley Water Board to enforce any provision of this Stipulated Order shall in no way be deemed a waiver of such provision, or in any way affect the validity of the Stipulated Order. The failure of the Prosecution Staff or Central Valley Water Board to enforce any such provision shall not preclude it from later enforcing the same or any other provision of this Stipulated Order.
16. Interpretation: This Stipulated Order shall be construed as if the Parties prepared it jointly. Any uncertainty or ambiguity shall not be interpreted against any one Party.

17. Modification: This Stipulated Order shall not be modified by any of the Parties by oral representation made before or after its execution. All modifications must be in writing, signed by all Parties, and approved by the Central Valley Water Board.

18. If Stipulated Order Does Not Take Effect: The Central Valley Water Board, or its delegatee, has the authority to independently review this Stipulated Order. In the event that this Stipulated Order does not take effect because it is rejected by the Central Valley Water Board, or its delegatee, or is vacated in whole or in part by the State Water Resources Control Board or a court, the Parties acknowledge that they expect to proceed to a contested evidentiary hearing before the Central Valley Water Board to determine whether to assess administrative civil liabilities for the underlying alleged violation, unless the Parties agree otherwise. The Parties agree that all oral and written statements and agreements made during the course of settlement discussions will not be admissible as evidence in the hearing. Notwithstanding objections on the admissibility of settlement discussions as evidence in a hearing, the Parties agree to waive any and all objections related to their efforts to settle this matter, including, but not limited to:

a. Objections related to prejudice or bias of any of the Central Valley Water Board members or their advisors and any other objections that are premised in whole or in part on the fact that the Central Valley Water Board members or their advisors were exposed to some of the material facts and the Parties' settlement positions as a consequence of reviewing the Stipulation and/or the Order, and therefore may have formed impressions or conclusions prior to any contested evidentiary hearing on the Complaint in this matter; or

b. Laches or delay or other equitable defenses based on the time period for administrative or judicial review to the extent this period has been extended by these settlement proceedings.

19. Denial of Liability: Phyllis Ormonde expressly denies the allegations described in the complaint and this Stipulated Order, and further specifically denies any violations or liability for penalties for violations arising out of or related to such allegations. Neither this Stipulated Order nor any payment pursuant to the Order shall constitute evidence of, or be construed as, a finding, adjudication, or acknowledgment of any fact, law or liability, nor shall it be construed as an admission of violation of any law, rule, or regulations.

20. Waiver of Hearing: The owner has been informed of the rights provided by CWC section 13323(b), and hereby waives their right to a hearing before the Central Valley Water Board prior to the adoption of the Stipulated Order.
21. Waiver of Right to Petition: The owner hereby waives their right to petition the Central Valley Water Board's adoption of the Stipulated Order as written for review by the State Water Resources Control Board, and further waive their rights, if any, to appeal the same to a California Superior Court and/or any California appellate level court.
22. **Covenant Not to Sue:** The owner covenants not to sue or pursue any administrative or civil claim(s) against any State Agency or the State of California, their officers, Board Members, employees, representatives, agents, or attorneys arising out of or relating to any Covered Matter.

23. **Central Valley Water Board is Not Liable:** Neither the Central Valley Water Board members nor the Central Valley Water Board staff, attorneys, or representatives shall be liable for any injury or damage to persons or property resulting from acts or omissions by the owner, their directors, officers, employees, agents, representatives or contractors in carrying out activities pursuant to this Stipulated Order.

24. **Authority to Bind:** Each person executing this Stipulated Order in a representative capacity represents and warrants that he or she is authorized to execute this Stipulated Order on behalf of and to bind the entity on whose behalf he or she executes the Order.

25. **No Third Party Beneficiaries.** This Stipulated Order is not intended to confer any rights or obligations on any third party or parties, and no third party or parties shall have any right of action under this Stipulated Order for any cause whatsoever.

26. **Effective Date:** This Stipulated Order shall be effective and binding on the Parties upon the date the Central Valley Water Board, or its delegatee, enters the Order.

27. **Counterpart Signatures:** This Stipulated Order may be executed and delivered in any number of counterparts, each of which when executed and delivered shall be deemed to be an original, but such counterparts shall together constitute one document.

**IT IS SO STIPULATED.**

California Regional Water Quality Control Board Prosecution Staff
Central Valley Region

Order of the Central Valley Water Board

28. In adopting this Stipulated Order, the Central Valley Water Board or its delegate has considered, where applicable, each of the factors prescribed in CWC sections 13327. The consideration of these factors is based upon information and comments obtained by the Central Valley Water Board’s staff in investigating the allegations in the Complaint or otherwise provided to the Central Valley Water Board or its delegate by the Parties and members of the public. In addition to these factors, this settlement recovers the costs incurred by the staff of the Central Valley Water Board for this matter.

29. This is an action to enforce the laws and regulations administered by the Central Valley Water Board. The Central Valley Water Board finds that issuance of this Order is exempt from the provisions of the California Environmental Quality Act (Public Resources Code, sections 21000 et seq.), in accordance with section 15321 (a)(2), Title 14, of the California Code of Regulations.

30. The terms of the foregoing Stipulation are fully incorporated herein and made part of this Order of the Central Valley Water Board.

Pursuant to CWC section 13323 and Government Code section 11415.60, IT IS HEREBY ORDERED by the California Regional Water Quality Control Board, Central Valley Region.

[Signature]
Kenneth D. Landau, Assistant Executive Officer

Date: 8 March 2012
This Complaint is issued to Phyllis Ormonde (Ormonde Frank & Phyllis Trust) and Jose and Fatima Martin (hereinafter jointly referred to as Discharger) pursuant to California Water Code (CWC) section 13268, which authorizes the imposition of Administrative Civil Liability (ACL) and CWC section 13323, which authorizes the Executive Officer to issue this Complaint. This Complaint is based on findings that indicate that the Discharger failed to submit technical reports pursuant to an Order issued by the Regional Water Quality Control Board, Central Valley Region under the authority of CWC section 13267.

The Executive Officer of the Regional Water Quality Control Board, Central Valley Region (hereinafter Central Valley Water Board) finds, with respect to the Discharger's acts, or failure to act, the following:

1. The Discharger owns and operates the J & F Martins Dairy #2 (Dairy) located at Hanford, California, County of Kings.

3. The General Order and the MRP required that an Annual Report for the calendar year 2009 be submitted for regulated facilities by 1 July 2010 (2009 Annual Report), including the following components: a revised Annual Dairy Facility Assessment, with facility modifications implemented to date; and a status on facility retrofitting completed as proposed in the Nutrient Management Plan submittal that was due 1 July 2009.

4. The General Order required regulated facilities to submit a Waste Management Plan (WMP) by 1 July 2009. The General Order was amended by Order R5-2009-0029 to modify the compliance schedule, extending the deadline to submit the WMP to 1 July 2010 in order to give regulated parties additional time to come in to compliance. The WMP is required to have the following components: a retrofitting plan, with schedule, needed to improve storage capacity, flood protection, or design of production area; maps of the production area and land application area; a wastewater storage capacity...
evaluation; a flood protection evaluation; a production area design/construction evaluation; and documentation that there are no cross connections.

**STATEMENT OF WATER CODE SECTIONS UPON WHICH LIABILITY IS BEING ASSESSED**

5. An administrative civil liability may be imposed pursuant to the procedures described in CWC section 13323. An administrative civil liability complaint alleges the act or failure to act that constitutes a violation of law, the provision of law authorizing administrative civil liability to be imposed, and the proposed administrative civil liability.

6. Pursuant to CWC section 13267, subdivision (b), a regional board may require that any person who has discharged, discharges, or is suspected of having discharge or discharging, or who proposes to discharge waste within its region..., shall furnish, under penalty of perjury, technical or monitoring program reports which the regional board requires. The burden, including costs, of these reports shall bear a reasonable relationship to the need for the report and the benefits to be obtained from the reports. In requiring those reports, the regional board shall provide the person with a written explanation with regard to the need for the reports, and shall identify the evidence that supports requiring that person to provide the reports.

7. Pursuant to CWC section 13268, subdivision (a), any person failing or refusing to furnish technical or monitoring program reports as required by subdivision (b) of section 13267, or failing or refusing to furnish a statement of compliance as required by subdivision (b) of section 13399.2, or falsifying any information provided therein, is guilty of a misdemeanor and may be liable civilly in accordance with subdivision (b).

8. Pursuant to CWC section 13268, subdivision (b)(1), civil liability may be administratively imposed by a regional board in accordance with Article 2.5 (commencing with section 13323) of Chapter 5 for a violation or subdivision (a) in an amount which shall not exceed one thousand dollars ($1,000) for each day in which the violation occurs.

**ALLEGED VIOLATIONS**

9. On 16 August 2010, the Central Valley Water Board staff issued a Notice of Violation, notifying the Discharger that the 2009 Annual Report with appurtenant components had not been received. (Exhibit C.) The Notice of Violation also requested that the delinquent report be submitted as soon as possible to minimize potential liability.

10. On 16 August 2010, the Central Valley Water Board staff issued a Notice of Violation, notifying the Discharger that the Waste Management Plan with appurtenant components had not been received. (Exhibit D.) The Notice of Violation also requested that the delinquent report be submitted as soon as possible to minimize potential liability.
11. On 23 September 2010, Central Valley Water Board staff contacted the Discharger by telephone reminding the Discharger that the 2009 Annual Report and the Waste Management Plan had not been received for the Dairy. Details of the conversation with the Discharger have been documented in a Record of Communication. (Exhibit E.)

12. Central Valley Water Board’s compliance tracking system and case files indicate that the Board has not received the 2009 Annual Report or the Waste Management Plan.

13. The Discharger is alleged to have violated the following sections of the General Order and of the MRP:

   A) Provision E.3 of the General Order, which states:

   “The Discharger shall comply with the attached Monitoring and Reporting Program No. R5-2007-0035 which is part of this Order, and future revisions thereto or with an individual monitoring and reporting program, as specified by the Central Valley Water Board or the Executive Officer.”

   B) Provision E.13 of the General Order, which states in part:

   “The Discharger must comply with all conditions of this Order, including timely submittal of technical and monitoring reports as directed by the Executive Officer.”

   C) The MRP, which states in part:

   “An annual monitoring report is due by 1 July of each year . . . [T]he annual report shall cover information on crops harvested during the previous calendar year . . .”

   D) Required Reports and Notices H.1.b of the General Order, which states in part:

   “The Discharger shall submit a Waste Management Plan for the production area of the dairy facility, prepared in accordance with Attachment B. The Waste Management Plan shall provide an evaluation of the existing milk cow dairy’s design, construction, operation, and maintenance for flood protection and waste containment . . .”

14. The Discharger violated both the General Order and the MRP by failing to submit the 2009 Annual Report as directed by the MRP that accompanies the General Order, which contain reporting requirements for dairies regulated by the General Order.

15. The Discharger violated the General Order by failing to submit the Waste Management Plan as directed by the General Order.
SUMMARY OF ALLEGED VIOLATIONS

1. **Violation No. 1:** The Discharger failed to submit an annual report for 2009 by 1 July 2010 as required by the General Order and the MRP. As of the date of this Complaint this report is now 308 days late.

2. **Violation No. 2:** The Discharger failed to submit a Waste Management Plan by 1 July 2010 as required by the General Order and as amended by Order R5-2009-0029. As of the date of this Complaint this report is now 308 days late.

The Discharger has been out of compliance for a total of 616 days.

FACTORS CONSIDERED IN DETERMINING ADMINISTRATIVE CIVIL LIABILITY

16. On 17 November 2009, the State Water Board adopted Resolution No. 2009-0083 amending the Water Quality Enforcement Policy (Enforcement Policy). The Enforcement Policy was approved by the Office of Administrative Law and became effective on 20 May 2010. The Enforcement Policy establishes a methodology for assessing administrative civil liability. The use of this methodology addresses the factors that are required to be considered when imposing a civil liability. This policy can be found at:

17. The administrative civil liability was derived from the use of the penalty methodology in the Policy. In summary, this penalty assessment is based on a consideration of the failure to respond to requests made pursuant to CWC section 13267, subdivision (b), for Violations 1 through 3. The proposed civil liability takes into account such factors as the Discharger's culpability, history of violations, ability to pay and continue in business, and other factors as justice may require.

Violations under Water Code section 13267 are assessed on a per day basis. However, the violations at issue are primarily reporting violations and therefore qualify for the alternative approach to penalty calculation under the Enforcement Policy. The failure to submit an annual report or a WMP does not cause daily detrimental impacts to the environment or the regulatory program. It is appropriate to assess daily penalties for the first thirty (30) days, plus one violation for each additional thirty-day period. For Violations 1 and 2, the days fined is reduced to 16 days (Attachment B).

The required factors have been considered using the methodology in the Enforcement Policy, as explained in detail in Attachment A and shown in the Penalty Calculation for Civil Liability (Attachment B).

18. The maximum penalty for the violations described above is $616,000 based on a calculation of the total number of per-day violations times the statutory maximum penalty (616 total days
of violation ($1000). However, based on consideration of the above facts and after applying the penalty methodology, the Executive Officer of the Central Valley Water Board proposes that civil liability be imposed administratively on the Discharger in the amount of **eleven thousand four hundred dollars ($11,400)** for the two violations cited above. The specific factors considered in this penalty are detailed in Attachment A. The Discharger's culpability, history of violations, and ability to pay and continue in business were considered, but did not change the amount of liability. Other factors as justice may require were considered, but circumstances warranting an adjustment under this step were not identified by staff or provided by the Discharger.

**PROPOSED ADMINISTRATIVE CIVIL LIABILITY**

The Executive Officer proposes that the Discharger be assessed an administrative civil liability pursuant to Water Code sections 13323 and 13268 in the amount of **eleven thousand four hundred dollars ($11,400)** for failure to submit the 2009 Annual Report and the Waste Management Plan by the 1 July 2010 deadline as required by the General Order and the MRP.

The Executive Officer proposes that the amount of the assessed administrative civil liability ($11,400) may be reduced provided the Discharger submits one or more of the following: 1) a complete 2009 Annual Report; and/or 2) a complete Waste Management Plan. The amount of the assessed civil liability shall be reduced by $2,000 for each report described above that is received by **20 June 2011** and which the Executive Officer finds complete. The total adjustment to the liability amount will not exceed $4,000.

If a panel of the Central Valley Water Board holds a hearing, it may choose to recommend to the Central Valley Water Board the imposition of administrative civil liability in the amount proposed, in a higher or lower amount, or it may decline to seek civil liability, or it may recommend referral of the matter to the Attorney General for enforcement. If this matter proceeds to hearing, the Prosecution Team reserves the right to seek an increase in the civil liability amount to cover the costs of enforcement incurred subsequent to the issuance of this administrative civil liability complaint through hearing.

Notwithstanding the issuance of this Complaint, the Central Valley Water Board retains the authority to assess additional penalties for violations of the requirements of the Discharger's waste discharge requirements for which penalties have not yet been assessed or for violations that may subsequently occur.
Issuance of this Complaint is an enforcement action and is therefore exempt from the provisions of the California Environmental Quality Act (Pub. Res. Code § 21000 et seq.) pursuant to title 14, California Code of Regulations sections 15308 and 15321 subsection (a) (2).

Payment of the assessed liability amount does not absolve the Discharger from complying with the General Order or the MRP, the terms of which remain in effect. Additional civil liability may be assessed in the future if the Discharger fails to comply with the General Order, the MRP, the 13267 Order, and/or future orders issued by the Central Valley Water Board.
