MINOR MODIFICATIONS TO THE DONNER SUMMIT PUBLIC UTILITY DISTRICT, WASTEWATER TREATMENT PLANT, WASTE DISCHARGE REQUIREMENTS ORDER R5-2015-0068 (NPDES PERMIT NO. CA0081621), NEVADA COUNTY

This letter is to notify you of the necessary correction to Table 3 of Waste Discharge Requirements Order R5-2015-0068. Federal Regulations (40 CFR 122.46(a)) allow National Pollutant Discharge Elimination System (NPDES) Permits to be effective for no more than five years. In this case, the permit expiration date was inadvertently made five years plus one day from the effective date. Therefore, the expiration date should be 31 July 2020, instead of 1 August 2020, so the permit is not effective for more than five years. Consequently, the due date to file a Report of Waste Discharge also needed to be changed because it is directly tied to 180 days before the date of expiration. Pursuant to Federal Regulations (40 CFR 122.63(a)), minor modifications of an NPDES permit are allowed to correct typographical errors. The minor modifications, shown in underline/strikeout format, are made to Table 3 of Order R5-2015-0068, as shown below:
