CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD CENTRAL VALLEY REGION

ORDER R5-2019-0074

RESCINDING WASTE DISCHARGE REQUIREMENTS

The California Regional Water Quality Control Board, Central Valley Region (Central Valley Water Board), finds that the Central Valley Water Board adopted the following Orders which are no longer applicable for the reasons shown:

a. CALIFORNIA DEPARTMENT OF TRANSPORTATION, MAXWELL SAFETY ROADSIDE REST AREA, COLUSA COUNTY, ORDER 85-321

Waste Discharge Requirements (WDRs) Order 85-321. Adopted on 6 December 1985, prescribes requirements for the discharge of wastewater from the Maxwell Safety Roadside Rest Area (Maxwell SRRA). California Department of Transportation owns and operates the Maxwell SRRA, which is located on Interstate 5, approximately 2.0 miles south of Maxwell at Post Mile 24.30 in Colusa County. Central Valley Water Board staff determined that the facility can be regulated under the General Waste Discharge Requirements for Small Domestic Wastewater Treatment Systems, Order WQ 2014-0153-DWQ. A Notice of Applicability was issued to the Discharger on 11 July 2019, assigning Order 2014 0153-DWQ-R5297 to the facility and discharge. Therefore, it is appropriate to rescind WDRs Order 85-321.

b. CITY OF LODI, WHITE SLOUGH WATER POLLUTION CONTROL FACILITY, SAN JOAQUIN COUNTY, ORDER R5-2013-0125-01 (NPDES PERMIT CA0079243)

Waste Discharge Requirements Order R5-2013-0125-01 (NPDES No. CA0079243), was adopted on 4 October 2013 and amended by Order R5-2014-0122 on 9 October 2014. The NPDES permit prescribes requirements for the City of Lodi's White Slough Water Pollution Control Facility for the discharge of disinfected, tertiary-treated municipal wastewater to Dredger Cut, within the Sacramento-San Joaquin Delta. On 3 May 2018, the City of Lodi submitted a Notice of Intent requesting coverage under General Order R5-2017-0085 for Municipal Wastewater Dischargers That Meet Objectives/Criteria at the Point of Discharge to Surface Water. Based on the Notice of Intent, the Central Valley Regional Water Quality Control Board's Executive Officer issued a Notice of Applicability (R5-2017-0085-003) on 11 March 2019 to regulate the discharge to Dredger Cut. Consequently, Order R5-2013-0125-01 is rescinded by this Order.

c. CITY OF ROSEVILLE - DRY CREEK WASTEWATER TREATMENT PLAN, ORDER R5-2014-0049 (NPDES PERMIT CA0079502)

Waste Discharge Requirements Order R5-2014-0049 (NPDES Permit CA0079502) adopted on 28 March 2014, prescribed requirements for the City of Roseville's (Discharger) Dry Creek Wastewater Treatment Plant (Facility) in Placer County. Order R5-2014-0049 authorized the discharge of disinfected, tertiary-treated municipal wastewater from the Facility to Dry Creek. On 29 October 2018 the Discharger submitted a Notice of Intent for the Facility requesting coverage under General Order R5-2017-0085 for Municipal Wastewater Dischargers That Meet Objectives/Criteria at the Point of Discharge to Surface Water (Municipal General Order). Based on the Notice of Intent the Executive Officer determined the Facility's discharge is eligible for coverage under the Municipal General Order and issued a Notice of Applicability (R5-2017-0085-004) on 28 June 2019. The Notice of Applicability includes effluent limitations with which the Discharger is expected to comply. Consequently, Order R5-2014-0049 is no longer necessary.

d. CITY OF ROSEVILLE – PLEASANT GROVE WASTEWATER TREATMENT PLANT, PLACER COUNTY, ORDER R5-2014-0051 (NPDES PERMIT CA0084573)

Waste Discharge Requirements Order R5-2014-0051 (NPDES Permit CA0084573) adopted on 28 March 2014, prescribed requirements for the City of Roseville's (Discharger) Pleasant Grove Wastewater Treatment Plant (Facility) in Placer County. Order R5-2014-0051 authorized the discharge of disinfected, tertiary-treated municipal wastewater from the Facility to Pleasant Grove Creek. On 29 October 2018 the Discharger submitted a Notice of Intent for the Facility requesting coverage under General Order R5-2017-0085 for Municipal Wastewater Dischargers That Meet Objectives/Criteria at the Point of Discharge to Surface Water (Municipal General Order). Based on the Notice of Intent the Executive Officer determined the Facility's discharge is eligible for coverage under the Municipal General Order and issued a Notice of Applicability (R5-2017-0085-005) on 28 June 2019. The Notice of Applicability includes effluent limitations with which the Discharger is expected to comply. Consequently, Order R5-2014-0051 is no longer necessary.

e. CITY OF WILLIAMS – WASTEWATER TREATMENT PLANT, COLUSA COUNTY, ORDER R5-2014-0078 (NPDES PERMIT CA0077933)

Waste Discharge Requirements Order R5-2014-0078 (NPDES Permit CA0077933) adopted on 6 June 2014, prescribed requirements for the City of Williams (Discharger) Wastewater Treatment Plant (Facility) in Colusa County. Order R5-2014-0078 authorized the discharge of disinfected, tertiary-treated municipal wastewater from the Facility to Salt Creek. On 8 November 2018 the Discharger submitted a Notice of Intent for the Facility requesting coverage under General Order R5-2017-0085 for Municipal Wastewater Dischargers That Meet Objectives/Criteria at the Point of Discharge to Surface Water (Municipal General Order). Based on the Notice of Intent the Executive Officer determined the Facility's discharge is eligible for coverage under the Municipal General Order and issued a

Notice of Applicability (R5-2017-0085-008) on 28 June 2019. The Notice of Applicability includes effluent limitations with which the Discharger is required to comply. Consequently, Order R5-2014-0078 is no longer necessary.

f. EL DORADO IRRIGATION DISTRICT – DEER CREEK WASTEWATER TREATMENT PLANT, EL DORADO COUNTY, ORDER R5-2014-0084-01 (NPDES PERMIT CA0078662)

Waste Discharge Requirements Order R5-2014-0081-01 (NPDES Permit CA0078662) adopted on 6 June 2014, and amended on 11 August 2017, prescribed requirements for the El Dorado Irrigation District's (Discharger) Deer Creek Wastewater Treatment Plant (Facility) in El Dorado County. Order R5-2014-0081-01 authorized the discharge of disinfected, tertiary-treated municipal wastewater from the Facility to Deer Creek. On 17 January 2019 the Discharger submitted a Notice of Intent for the Facility requesting coverage under General Order R5-2017-0085 for Municipal Wastewater Dischargers That Meet Objectives/Criteria at the Point of Discharge to Surface Water (Municipal General Order). Based on the Notice of Intent, the Executive Officer determined the Facility's discharge is eligible for coverage under the Municipal General Order and issued a Notice of Applicability (R5-2017-0085-006) on 18 July 2019. The Notice of Applicability includes effluent limitations with which the Discharger is expected to comply. Consequently, Order R5-2014-0081-01 is no longer necessary.

g. EL DORADO IRRIGATION DISTRICT – EL DORADO HILLS WASTEWATER TREATMENT PLANT, EL DORADO COUNTY, ORDER R5-2013-0003 (NPDES PERMIT CA0078671)

Waste Discharge Requirements Order R5-2013-0003 (NPDES Permit CA0078671) adopted on 31 January 2013 prescribed requirements for the El Dorado Irrigation District's (Discharger) El Dorado Hills Wastewater Treatment Plant (Facility) in El Dorado County. Order R5-2013-0003 authorized the discharge of disinfected, tertiary-treated municipal wastewater from the Facility to Carson Creek. On 25 August 2017 the Discharger submitted a Report of Waste Discharge for the Facility requesting renewal of the NPDES Permit. The Report of Waste Discharge fulfilled the Notice of Intent requirements for coverage under General Order R5-2017-0085 for Municipal Wastewater Dischargers That Meet Objectives/Criteria at the Point of Discharge to Surface Water (Municipal General Order). The Executive Officer determined the Facility's discharge is eligible for coverage under the Municipal General Order and issued a Notice of Applicability (R5-2017-0085-002) on 31 August 2018. The Notice of Applicability includes effluent limitations with which the Discharger is expected to comply. Consequently, Order R5-2013-0003 is no longer necessary.

h. ELK CREEK COMMUNITY SERVICES DISTRICT, WATER TREATMENT PLANT, GLENN COUNTY, ORDER 96-024

Waste Discharge Requirements Order 96-024, adopted on 26 January 1996, prescribes requirements for the discharge from the Elk Creek Community Services District, Glenn County (Facility). The Facility's system is comprised of backwash and flushing of the water treatment plant filters that discharges to Pond 1 and an emergency overflow pond, each with approximately 97,000 gallons capacity. The Facility is now regulated under Water Quality Order R5-2018-0085 (General Order) for waiver of waste discharge requirements for specific types of discharge within Central Valley Region. Therefore, it is appropriate to rescind Waste Discharge Requirements Order 96-024.

i. GRIZZLY LAKE COMMUNITY SERVICES DISTRICT, DELLEKER WASTEWATER TREATMENT PLANT, PLUMAS COUNTY, ORDER R5-2018-0904

Treated wastewater from the Grizzly Lake Community Services District's (Discharger) Delleker Wastewater Treatment Plant (Facility) is regulated pursuant to Waste Discharge Requirements (WDRs) Order R5-2019-0052 (National Pollutant Discharge Elimination System Permit No. CA0081744), adopted by the Central Valley Water Board on 7 June 2019, and Time Schedule Order (TSO) R5-2018-0904, issued by the Executive Officer of the Central Valley Water Board on 17 December 2018. TSO R5-2018-0904 provided interim effluent limitations for copper until the Discharger could comply with final copper effluent limitations in their previous NPDES permit, WDRs R5-2012-0046. The WDRs were renewed in June 2019 (Order 2019-0052) with less stringent final copper effluent limitations based on updated dilution credits and the Discharger stated that no time is required to comply with the final copper effluent limitations included in the renewed WDRs. Therefore, TSO R5-2018-0904 is no longer required.

j. GOLD RIDGE FOREST PROPERTY OWNERS ASSOCIATION, EL DORADO IRRIGATION DISTRICT, GOLD RIDGE FOREST UNIT NO. 3, EL DORADO COUNTY, ORDER 5-00-135

Waste Discharge Requirements (WDRs) Order 5-00-135, adopted on 16 June 2000, prescribes requirements for the discharge of wastewater from the Gold Ridge Forest Unit No.3 located in Pollock Pines, El Dorado County. The Gold Ridge Forest Property Owners Association owns the land associated with the treatment system and the El Dorado Irrigation District is responsible for the operation of the system. Central Valley Water Board staff determined that the facility can be regulated under the General Waste Discharge Requirements for Small Domestic Wastewater Treatment Systems, Order WQ 2014-0153-DWQ. A Notice of Applicability was issued to the Discharger on 6 August 2019, assigning Order 2014 0153-DWQ-R5293 to the facility and discharge. Therefore, it is appropriate to rescind WDRs Order 5-00-135.

k. RICHARDSON SPRINGS COMMUNITY SERVICES DISTRICT WASTEWATER TREATMENT FACILITY, BUTTE COUNTY, ORDER 94-245

Waste Discharge Requirements Order 94-245, adopted on 16 September 1994, prescribes requirements for the discharge from Richardson Springs Community Services District wastewater treatment and disposal system, Butte County (Facility). The Facility is comprised of a wastewater collection system, septic tank, two lined treatment ponds, chlorine contact pipe, one lined stabilization pond and common land application area. The Facility is now regulated under Water Quality Order 2014-0153-DWQ (General Order) for discharges to land from small domestic systems with a maximum average daily flow of 100,000 gallons or less. Therefore, it is appropriate to rescind Waste Discharge Requirements Order 94-245.

IT IS HEREBY ORDERED that the above Orders are rescinded on the date of this order unless otherwise stated above.

I, PATRICK PULUPA, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Central Valley Region on 11 October 2019.

PATRICK PULUPA, Executive Officer
